| Unit description               | This unit is the first of a series of key units within the Bachelor of Clinical Science that focus on the core knowledge and skills underpinning a career in health care as a researcher, manager, or practitioner. Starting with core concepts in professional conduct and university learning, you will explore professionalism through a variety of topics, including: reflection, evidence, communication, and teamwork. Learning activities will include interactive tutorials, online activities, and expert lectures allowing you to develop your understanding of professional practice and build your capacity to become a reflective learner in the health context. |

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [https://www.mq.edu.au/study/calendar-of-dates](https://www.mq.edu.au/study/calendar-of-dates)

## Learning Outcomes

On successful completion of this unit, you will be able to:
ULO1: Apply the fundamental skills required for personal reflection and life-long learning.
ULO2: Identify core concepts of communication.
ULO3: Define the key attributes of effective teams.
ULO4: Analyse the role of leadership and followership in teamwork.
ULO5: Select and integrate evidence from reliable academic sources
ULO6: Recognise the importance of core skills in healthcare and research
ULO7: Implement communication and teamwork skills in group tasks

General Assessment Information
Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenors.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, students must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submission
Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55 pm. A one-hour grace period is provided to students who experience a technical concern.

For example:

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance...
assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due to circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the Special Consideration Policy. Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

A reflective writing task demonstrating progress against capability statements in the portfolio

On successful completion you will be able to:

• Apply the fundamental skills required for personal reflection and life-long learning.
• Identify core concepts of communication.
• Define the key attributes of effective teams.
• Analyse the role of leadership and followership in teamwork.
• Select and integrate evidence from reliable academic sources
• Recognise the importance of core skills in healthcare and research

1 If you need help with your assignment, please contact:
   • the academic teaching staff in your unit for guidance in understanding or completing this
type of assessment
   • the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment
task and is subject to individual variation

Delivery and Resources

As a student enrolled in MEDI1400 Foundation of Learning, Communication and Teamwork, you will engage in a range of online and face-to-face learning activities, including readings, online modules, videos and lectures. Details can be found on the MEDI1400 iLearn site.
## Recommended Readings

There is no textbook for this unit and readings will be accessible through the library and Leganto.

## Technology Used

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own device may borrow one from the university library.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering
Since 2020, the Group Project was changed to a video presentation due to COVID-19 pandemic.

We value student feedback. Student survey results showed an interest in returning to face-to-face presentations; therefore, this assessment task will be presented in class to support the development of important presentation skills.

Inclusion and Diversity
Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism
In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions, including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded
(e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
