Unit description
This unit builds on foundational learning gained from MEDI1400 and MEDI2400, extending on the core knowledge and skills that underpin a career in health care as a researcher, manager, or practitioner. In this unit, we will focus on health care and systems exploring a range of topics within the themes of quality and health systems, communication, individual and society, and evidence-based practice. Through this unit you will continue your development as a reflective learner, particularly in applying your learning to clinical practice and research topics.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Critically assess own communication practice and demonstrate use of effective communication skills.
ULO2: Describe approaches to improving safety and quality in healthcare.
ULO3: Analyse health and wellbeing within the context of contemporary health issues.
ULO4: Evaluate delivery of and access to care within the Australian health system.
ULO5: Synthesise evidence coherently.
General Assessment Information

Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenors.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, students must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submission

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55 pm. A one-hour grace period is provided to students who experience a technical concern.

For example:

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due to circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the Special Consideration Policy. Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

Call for Action

Assessment Type: Essay
Indicative Time on Task: 15 hours
Due: Week 13
Weighting: 20%

Students will write a call for action letter addressing at least one issue discussed in this unit.

On successful completion you will be able to:

- Describe approaches to improving safety and quality in healthcare.
- Analyse health and wellbeing within the context of contemporary health issues.
- Evaluate delivery of and access to care within the Australian health system.
- Synthesise evidence coherently.

Debates

Assessment Type: Debate
Indicative Time on Task: 30 hours
Due: From Week 5 onwards
Weighting: 40%

Focusing on the topics relevant to the tutorial of each debate week, students complete debates in groups, which are marked on an existing individual and group rubric. As the topics change, students will be meeting at least two of the ULOs.

On successful completion you will be able to:
• Critically assess own communication practice and demonstrate use of effective communication skills.
• Describe approaches to improving safety and quality in healthcare.
• Analyse health and wellbeing within the context of contemporary health issues.
• Evaluate delivery of and access to care within the Australian health system.
• Synthesise evidence coherently.

Multiple tasks participation
Assessment Type 1: Participatory task
Indicative Time on Task 2: 12 hours
Due: Ongoing
Weighting: 15%

Participation will be marked based on the completion of activities on the iLearn page.

On successful completion you will be able to:
• Critically assess own communication practice and demonstrate use of effective communication skills.
• Describe approaches to improving safety and quality in healthcare.
• Analyse health and wellbeing within the context of contemporary health issues.
• Evaluate delivery of and access to care within the Australian health system.

Final written examination
Assessment Type 1: Examination
Indicative Time on Task 2: 20 hours
Due: Exam period
Weighting: 25%

Students will sit a final examination in the exam period.

On successful completion you will be able to:
• Critically assess own communication practice and demonstrate use of effective communication skills.
• Describe approaches to improving safety and quality in healthcare.
• Analyse health and wellbeing within the context of contemporary health issues.
• Evaluate delivery of and access to care within the Australian health system.
• Synthesise evidence coherently.

1 If you need help with your assignment, please contact:
• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources
As a student enrolled in MEDI3400 Contextualising Professionalism in Health Care Systems, you will engage in a range of online and face-to-face learning activities, including readings, online modules, videos, seminars and lectures. Details can be found on the MEDI3400 iLearn site.

Recommended Readings
There is no textbook for this unit and readings will be accessible through the library and/or Leganto.

Technology Used
Active participation in the learning activities throughout the unit will generally require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering
Assessment tasks were changed to include:
- an authentic assessment (Call for action)
- multiple tasks participation to promote student engagement throughout the session

We value student feedback. We, the teaching team, reflected on the feedback received from the students which led to changes to the learning activities in this unit. For example, more external experts will be invited to share their knowledge with the students during seminars and tutorials.

Inclusion and Diversity
Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism
In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.
As part of developing professionalism, **students are expected to attend all small group interactive sessions**, including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
