Unit description

This unit examines the relationships among the three pillars of sustainability: Environmental (Planet), Social (People), and Economic (Profit) in international business. The environmental pillar acknowledges the impact businesses and environmental stakeholders have on major environmental issues, such as climate change, food resources, water pollution, air pollution, energy and waste. The social pillar acknowledges the need for equity within and between generations, and within and between individuals, social groups and organisations. The economic pillar acknowledges the interactions of humans with the natural environment in using resources to create goods and services which add value to our lives. By the end of the unit, students will have a strong appreciation of the impacts of how individuals and organisations can potentially contribute to society and the environment. It encourages a fair-trading system that equitably distributes benefits and costs and further encourages students' innovation and creativity in business planning that leads to a sustainable future.

General Assessment Information

Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission-time for all written assessments is set at 11:55 pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).
