Unit description

This unit equips managers and potential managers with the skills and tools to construct, analyse, interpret, and act upon accounting, financial and non-financial information produced within a business to improve judgments and decisions. International and national contextual factors and theoretical frameworks are examined to provide insight into the complexities of financial decision making. The discussion and analysis begin with the three financial statements targeted at external users: statement of profit or loss, statement of financial position and statement of cash flows. The unit then proceeds into the analysis, interpretation of financial information, and the use of management accounting information for the purpose of managerial decision making. Research skills and real-life complexities in the decision-making process are highlighted.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Apply skills to investigate and propose well-reasoned solutions to make prudent

financial judgements and decisions.

**ULO2:** Evaluate a range of business indicators to measure and track the firm's value creation.

**ULO3:** Critically analyse the implications of a firm's decisions/strategies for a range of stakeholders in view of the firm's strategic considerations.

**ULO4:** Apply finance, accounting and economic theories, frameworks and methods to make business decisions.

## General Assessment Information

### Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

### Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date. Students can apply for special consideration via AskMQ.
