Unit description

Contemporary music production and composition is increasingly reliant on computer technology. In this unit, students are introduced to principles of composition and production using specialized software programs and virtual instruments. Students develop technical skills as well as compositional literacy. Creativity is encouraged, as students produce original musical works within the dedicated music computer laboratory. While music production software is used in this unit, no prior computer production or musical ability is necessary.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: apply proficiency with technological composition and musical creativity.

ULO3: evaluate musical ideas and participate in shared creativity both in class and online.

ULO2: analyse and describe creative musical works.

ULO4: practice independent problem-solving and analytical judgement in the application of specialized software in music making.

ULO5: produce and time-manage creative and research projects.

General Assessment Information

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to written reports and recordings only. **Late submission of time sensitive tasks** (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs **will be addressed by the unit convenor in a Special consideration application.**

Delivery and Resources

Lectures

Lectures are online (asynchronous) and are made available each week through the Echo360 system via iLearn.

Tutorials

Tutorials start in week 2 and are delivered on campus (for in-person enrolments) and via Zoom (for online enrolments).

Software

Ableton Live is the music production software used in this unit. The music lab has copies of this, and students are able to book times to work in this space. If you intend to work on your projects using your own computer, then refer to iLearn for licensing options and details.
