Unit description

This unit is intended to develop foundational knowledge and skills in the field of media communications and is designed for students from a range of backgrounds and skill levels. The unit introduces students to key theories and contemporary debates that animate the study of digital media and communications. We pose questions about the history of technological change, how we create and consume digital media, what happens to our online information, and the promises and risks related to new technologies. In class discussions, key texts, multimedia, and lecture content, students have the opportunity to engage with topics at the leading-edge of media studies. Students will develop capacities to analyse and critically assess how technologies are shaped and how they shape us. Additionally, students will undertake self-directed research involving hands-on digital media production. The unit provides a critical foundation for students pursuing postgraduate research in the area of media and communications with an emphasis on innovative digital media forms and practices.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: evaluate relationships between technology, media practices, and cultures.

ULO2: analyse critical debates and apply media studies theories.

ULO3: assess the historical and technological development of present-day media forms.

ULO4: formulate arguments and creative works based on appropriate research and academic sources.

ULO5: demonstrate academic communication skills in different media and genres.

General Assessment Information

Delivery and Resources

SEMINARS

The class format consists of weekly, two-hour, interactive seminars, which will combine seminar-style discussions, in class activities, and workshops. Classes are not recorded, so it is your responsibility to attend and take notes.

PREPARATION

You should read and take notes on the required readings for the week before attending the seminar. You can access the class readings on Leganto. We will read Kate Crawford's book *Atlas of AI* throughout the semester with additional readings listed in Leganto. *Atlas of AI* is available as an ebook through the MQ library, but you may also want to purchase a personal copy.

Students will be provided with preparation tasks to complete prior to each seminar. Please see iLearn for additional information.
