**Disclaimer**

Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Gather relevant information and report on updated evidence-based interventions using case formulation for working with stressed/trauma-related, neurological and health-
related populations across the life-span.

**ULO2**: Demonstrate understanding and effective application of principles and methods of empirically supported therapeutic approaches for working with stressed, traumatized, neurological and health related populations across the lifespan.

**ULO3**: Describe how to monitor therapeutic progress for working with stress/trauma-related disorders, health-related populations including neurological conditions across the lifespan, informed by evolving case formulations.

**ULO4**: Demonstrate understanding of appropriate collaboration with relevant health service professionals regarding case formulation and treatment plans for working with individuals and families with complex mental health problems, medical conditions, and/or comorbidities.

**ULO5**: Demonstrate professional competency in applying appropriate evidence-based interventions using case formulation for: 1) somatic disorders, 2) health-related disorders, 3) autism spectrum disorder, 4) stress and trauma-related disorders, and 5) more complex comorbid presentations.

**General Assessment Information**

General assessment Information Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

**Late Submissions:**

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

<table>

</tr>
<tr>
<td>Practical viva</td>
<td>45%</td>
<td>Yes</td>
<td>Week 13</td>
</tr>
<tr>
<td>Reflective report</td>
<td>10%</td>
<td>Yes</td>
<td>Week 13</td>
</tr>
</tbody>
</table>

Clinical Case Report

Assessment Type 1: Report
Indicative Time on Task 2: 35 hours
Due: Week 7
Weighting: 45%
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

Formulate evidence-based treatment plan to address client’s presenting problem and discuss recommended treatment plan.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Special Consideration:

If you are unable to complete an assessment task on or by the specified date due circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the special consideration policy. Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

Clinical Case Report

Assessment Type 1: Report
Indicative Time on Task 2: 35 hours
Due: Week 7
Weighting: 45%
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

Formulate evidence-based treatment plan to address client’s presenting problem and discuss recommended treatment plan.
On successful completion you will be able to:

- Gather relevant information and report on updated evidence-based interventions using case formulation for working with stressed/trauma-related, neurological and health-related populations across the life-span.
- Demonstrate understanding and effective application of principles and methods of empirically supported therapeutic approaches for working with stressed, traumatized, neurological and health related populations across the lifespan.
- Describe how to monitor therapeutic progress for working with stress/trauma-related disorders, health-related populations including neurological conditions across the lifespan, informed by evolving case formulations.
- Demonstrate understanding of appropriate collaboration with relevant health service professionals regarding case formulation and treatment plans for working with individuals and families with complex mental health problems, medical conditions, and/or comorbidities.

**Practical viva**

Assessment Type 1: Viva/oral examination  
Indicative Time on Task 2: 25 hours  
Due: Week 13  
Weighting: 45%  
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

Demonstrate part of an evidenced-based therapy question based on a vignette provided.

On successful completion you will be able to:

- Gather relevant information and report on updated evidence-based interventions using case formulation for working with stressed/trauma-related, neurological and health-related populations across the life-span.
- Demonstrate understanding and effective application of principles and methods of empirically supported therapeutic approaches for working with stressed, traumatized, neurological and health related populations across the lifespan.
- Describe how to monitor therapeutic progress for working with stress/trauma-related disorders, health-related populations including neurological conditions across the lifespan, informed by evolving case formulations.
- Demonstrate professional competency in applying appropriate evidence-based interventions using case formulation for: 1) somatic disorders, 2) health-related disorders, 3) autism spectrum disorder, 4) stress and trauma-related disorders, and 5) more complex comorbid presentations.

**Reflective report**

Assessment Type: Report
Indicative Time on Task: 5 hours
Due: Week 13
Weighting: 10%

This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

Students will be required to summarise reflections on their performance.

On successful completion you will be able to:
- Gather relevant information and report on updated evidence-based interventions using case formulation for working with stressed/trauma-related, neurological and health-related populations across the life-span.
- Demonstrate understanding and effective application of principles and methods of empirically supported therapeutic approaches for working with stressed, traumatized, neurological and health related populations across the lifespan.
- Describe how to monitor therapeutic progress for working with stress/trauma-related disorders, health-related populations including neurological conditions across the lifespan, informed by evolving case formulations.
- Demonstrate professional competency in applying appropriate evidence-based interventions using case formulation for: 1) somatic disorders, 2) health-related disorders, 3) autism spectrum disorder, 4) stress and trauma-related disorders, and 5) more complex comorbid presentations.

1 If you need help with your assignment, please contact:
   - the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
   - the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment
as a student enrolled in this unit, you will engage in a range of face-to-face, and at times online, learning activities, including readings, online modules, videos, lectures, practical skill demonstrations etc. Details can be found on the iLearn site for this unit.

Recommended and required readings can also be found on the iLearn site via weekly modules and Leganto.

**Technology Used:**

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

**Unit Schedule**

This Unit will aim to integrate science, theory, and critical thinking as the foundation for practice. Students are required to prepare for seminars by completing readings and/or material (e.g., videos, links, etc.) available via iLearn and Leganto prior to classes in order to benefit most from the Unit. Additional resources and reading material will be provided throughout the course during the relevant sections. Engagement with material and participation in class is essential.

Please see iLearn for schedule. Timetables for seminars, where applicable, can be found on the University website at: [https://timetables.mq.edu.au/2023](https://timetables.mq.edu.au/2023)

**Policies and Procedures**

Macquarie University policies and procedures are accessible from [Policy Central](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Assessment Procedure
- Complaints Resolution Procedure for Students and Members of the Public
- Special Consideration Policy

Students seeking more policy resources can visit [Student Policies](https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.
Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Services and Support

Macquarie University offers a range of Student Support Services including:
• IT Support
  • Accessibility and disability support with study
• Mental health support
• Safety support to respond to bullying, harassment, sexual harassment and sexual assault
• Social support including information about finances, tenancy and legal issues
• Student Advocacy provides independent advice on MQ policies, procedures, and processes

Student Enquiries
Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Inclusion & Diversity
Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers’ responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism
In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this
unit. We equally expect that you show respect for the academic staff who have worked hard to
develop meaningful activities and prioritise your learning by communicating with them in advance
if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every
student to learn in an environment that is free of disruption and distraction. Please arrive to all
learning activities on time, and if you are unavoidably detained, please join activity as quietly as
possible to minimise disruption. Phones and other electronic devices that produce noise and
other distractions must be turned off prior to entering class. Where your own device (e.g., laptop)
is being used for class-related activities, you are asked to close down all other applications to
avoid distraction to you and others. Please treat your fellow students with the utmost respect. If
you are uncomfortable participating in any specific activity, please let the relevant academic
know.
