Unit description

The study of public policy has traditionally been focused on the nation-state, and policy-making activities at the domestic level. However, national policy-makers are increasingly focused on international policy challenges. Using a series of detailed case studies, this unit reflects critically on debates around globalisation and the state. The unit introduces students to the policy process and explores the impact of international institutions, interests and ideas on domestic policy-making. The unit examines direct and indirect, coercive and voluntary mechanisms of policy transfer, diffusion and mobility, as well as the factors that shape patterns of intergovernmental cooperation and coordination.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
