Unit description

This unit provides students with the opportunity to observe, plan, implement, manage and evaluate teaching programs as part of undertaking 16 days of professional experiences. Central to this professional experience is a critical reflection model that guides and highlights the student's awareness regarding the role that research plays in strengthening their professional skills and knowledge. Using critical reflection students will demonstrate professional practice that optimises outcomes for people with sensory disability.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Investigate research in sensory disability and synthesise findings to make improvements in identified focus areas for improvement.

ULO2: Critically reflect on level of competency of the Australian Professional Standards for Teachers (and relevant elaborations) in order to formulate an improvement teaching plan

ULO3: Create, and deliver lesson sequences using knowledge of student learning and evaluate effectiveness of implemented teaching strategies

ULO4: Apply understanding of assessment strategies, including formal and informal, diagnostic, formative and summative approaches to assess and report on student learning.

General Assessment Information

Academic honesty

- At all times, students should be aware of and apply the Macquarie University policy on academic honesty (<https://policies.mq.edu.au/document/view.php?id=3>)
- Information on the acceptable and permitted use of generative artificial intelligence tools

(GAIT) is outlined in the instructions for each unit assessment task

Assessment Presentation Guidelines

Please follow these guidelines when you submit each assignment:

- The assignment title page should include the student's name, student number, unit code, title of the assessment and submitted word count.
- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using a minimum of Arial, 12-point font and 1.5 spacing.
- Faculty assignment cover sheets are **NOT** required.
- Students should regularly save a copy of all assignments before submission.
- Students must use the Turnitin Similarity Report as a learning tool to improve their academic writing and, in consideration of the report outcome, attend to any potential academic integrity issues, prior to submission of the final version of the assignment.
- Students are strongly encouraged to upload a draft copy of each assignment to Turnitin at least one week prior to the due date to obtain a Turnitin Similarity Report. The Turnitin Similarity Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- For written assignments in SPED8910 a **Turnitin Similarity Report** should be reviewed but is **NOT required** to be submitted.

Assessment submission guidelines

- All assignments must be submitted through Turnitin as an accessible word document – **do not submit as a pdf.**
- It is the responsibility of the student to ensure that all assignments are successfully submitted through Turnitin - students should carefully check that they submit the correct file for an assessment as no re-submissions will be accepted after the due date and time, including instances where students upload an incorrect file in error.

Application for Special Consideration – extensions

- Applications for Special Consideration - extensions must be made via AskMQ (<https://ask.mq.edu.au/>).
- It is not the responsibility of unit staff to contact students who have failed to submit

assessments. It is the student's responsibility to contact the unit convenor when assessments are missed.

Assessment marking

- Word limits are not applied to SPED8910 assignments.
- All assessments are marked using a rubric.
- Marking of all assessments is moderated by the Unit Convenor.
- Turnitin plagiarism detection software is used to check all written assessments.

University policy on grading

Criteria for awarding grades for assessment tasks

Assignments will be awarded a grade according to guidelines set out in the University's Grading Policy. SPED8910 is a pass/ fail unit. Students who demonstrate a 'Graduate' level of competency in their Professional Experience will be awarded an Ungraded Pass.

Descriptive criteria for awarding grades in the unit

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. The following generic grade descriptors provide university-wide standards for awarding final grades.

Grade	Descriptor
P (Pass).	Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes
F (Fail)	Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.

Note: If you fail a unit with a professional experience component, the fail grade will be on your transcript irrespective of the timing of the placement.

Withdrawing from this unit

If you are considering withdrawing from this unit, please contact the Graduate Studies Coordinator Tanya Kysa on 0484913641 or student.enquiries@nextsense.org.au, prior to

withdrawing, for advice related to your progression. You can also seek academic advice via <https://ask.mq.edu.au> before withdrawing as this unit may be a co-requisite or prerequisite for units in the following sessions and may impact on your progression through the degree.

5Rs Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout this unit. Your use of the 5Rs Framework will help you develop the capabilities that will make your career sustainable and fulfilling. In this unit, you will learn using the 5Rs framework in the following important ways:

Resilient	Reflexive	Responsive	Ready to learn	Research engaged
-----------	-----------	------------	----------------	------------------

<p>Students gain knowledge about the critical role they play in facilitating resilience in school students who are Deaf/Hard of Hearing or Blind/ Low Vision. Students are proactive in planning ahead to meet the demands of their professional experience placement and show self-belief in their ability to overcome any challenges (teacher self efficacy).</p>	<p>Students are encouraged to critically reflect in the context of themselves as specialist teachers, on their previous and future professional experiences and make changes to their practice as a result of this reflection.</p>	<p>Students are expected to be responsive to the feedback from their supervisors by implementing improvements to their practice; and responsive to the ideas of peers through providing meaningful and supportive feedback.</p>	<p>Students are encouraged to reflect and then identify their own learning needs for their context and career stage (based on NAATD/ SPEVI competencies), to pursue learning that achieves great outcomes for the school students they work with now and into the future. Students take responsibility for learning independently as well as fostering collaborative learning in other students.</p>	<p>Students practice academic integrity as they learn to explore contemporary and relevant literature. Students engage with literature and base their practice on evidence.</p>
