Unit description

This unit provides you with practical 'hands on' experience working on a social research project for government, university, industry or a community based organisation. Projects involve a variety of research activities including policy reviews, program design, evaluations, community advocacy and more. The unit is made up of two parts. The first part involves you undertaking a supervised research placement with an organisation (150 hours). Projects are generally sourced for you, however you may organise your own with the unit convenor's approval at least two months before the commencement of semester. The second part involves six workshops designed to develop skills and capacities you will need to manage and conduct research in an ethical and professional manner. From these two parts of the unit, and by reflecting on your project and personal experience, you will gain an understanding of the work of social researchers and the contribution they make to organisations and society more broadly. You will also gain insights into the skills and knowledge you need to further develop, possible career options and set goals for the future. Visit [Employability Connect](#) for important information on this unit including required preparation and closing dates for PACE activities.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

- ULO1:** Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- ULO2:** Design and implement a project plan to successfully undertake and manage tasks, data, risks, time and resources.
- ULO3:** Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- ULO4:** Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.
- ULO5:** Create and produce a high quality evidence informed artefact such as a report, research instrument, discussion paper or resource for an organisation that supports the organisation's purpose and strategic goals.

## General Assessment Information

Please submit your Project Management Plan (PMP), Short Written Task and Final Report electronically via iLearn and the Turnitin function. You will also use iLearn to load your presentations however a different tool from Turnitin is used - see the Assessment section in iLearn for instructions on what to do (we also discuss this in class).

Please note that Project Management Plan (PMP) is due once you have completed a minimum of 20-30 hours working on your project. The submission date will therefore vary between students. Please talk to a staff member if you are confused or have any questions about this due date.

Contact the Unit Convenor as soon as possible if you find yourself unable to meet the submission dates for assessments and/or the minimum placement hours can not be met.

### University Grading Policy

The grade that a student receives will signify their overall performance in meeting the learning outcomes of the unit of study. Graded units will use the following grades

HD	High Distinction	85-100
D	Distinction	75-84
Cr	Credit	65-74
P	Pass	50-64
F	Fail	0-49

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University.

### Return of Marked Work

As per university policy, written assessments will be returned to students within three weeks of the submission date. While assignments submitted early are not marked early, the Project Management Plans are marked as quickly as possible to allow students to action feedback provided and continue with their work.

### Late penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#">Project Management Plan (PMP)</a>	25%	No	First 20-30 hours of working on your project
<a href="#">Short Written Task</a>	10%	No	27 March
<a href="#">Presentation</a>	25%	No	Week 20 (Seminar 5 - 22 or 25 May)
<a href="#">Final Project Report</a>	20%	No	12 June
<a href="#">Workplace supervisor's report</a>	20%	No	End of project approx. 12 June

### Project Management Plan (PMP)

Assessment Type <sup>1</sup>: Plan

Indicative Time on Task <sup>2</sup>: 38 hours

Due: **First 20-30 hours of working on your project**

Weighting: **25%**

Students develop their project management planning skills by creating a plan for their research project/activity. The plan must include: project description and rationale; outline of study design, objectives, outcomes and key stakeholders; specify key tasks and timeline; resources required; risks/issues and mitigation strategies; strategies for monitoring and evaluating the project and the quality of their work. The workplace supervisor must check this task prior to submission.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Design and implement a project plan to successfully undertake and manage tasks, data, risks, time and resources.

## Short Written Task

Assessment Type <sup>1</sup>: Reflective Writing

Indicative Time on Task <sup>2</sup>: 10 hours

Due: **27 March**

Weighting: **10%**

This task requires students to use critical and ethical thinking along with reflective skills to respond a question focused on either: a) the application of a specific principle of research ethics to their own project (using the National Health and Medical Research Council guidelines) OR b) to critically analyse and report on their own positionality in relation to their research project.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

## Presentation

Assessment Type <sup>1</sup>: Presentation

Indicative Time on Task <sup>2</sup>: 35 hours

Due: **Week 20 (Seminar 5 - 22 or 25 May)**

Weighting: **25%**

This task is designed for students to synthesize their academic and professional knowledge and present it in the form of a professional presentation to class and workplace supervisors. Presenters need to: 1. Engage with their audience through effective non-verbal and verbal skills – eye contact, body language, poise, enthusiasm and elocution! 2. Provide an overview of their project and organisation, including examples and evidence of their work/project. 3. Draw conclusions about the impact of their work on their organization and/or their future career/study plans. 4. Share reflections on their learning/s. 5. Manage their presentation in a logical, organized and timely way.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

## Final Project Report

Assessment Type <sup>1</sup>: Report

Indicative Time on Task <sup>2</sup>: 30 hours

Due: **12 June**

Weighting: **20%**

The final project report requires students to critically analyse and reflect on their research project and experiences. The report must include: a critique of the study design and research methods/ approaches used; research related challenges faced and how these were overcome; ethical and/ cultural considerations and how addressed; examples/samples of work completed; a critical reflection on their personal, academic and career learning along with a consideration of the value of their disciplinary knowledge (social research) and/or their major to their project and/or society more broadly.

On successful completion you will be able to:

- Demonstrate and apply qualitative and/or quantitative research skills and knowledge to an applied social research project for an organisation.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Critically analyse and report on research methods and processes, project outputs and outcomes, effectively using a range of professional and academic written and oral formats.

## Workplace supervisor's report

Assessment Type <sup>1</sup>: Work-integrated task

Indicative Time on Task <sup>2</sup>: 0 hours

Due: **End of project approx. 12 June**

Weighting: **20%**

The workplace supervisor will undertake an assessment of the student's work and performance at the end of the project.

On successful completion you will be able to:

- Design and implement a project plan to successfully undertake and manage tasks, data, risks, time and resources.
- Integrate critical thinking and reflective practices into their project, and develop self-management strategies to address challenges and enhance personal, academic and career learning.
- Create and produce a high quality evidence informed artefact such as a report, research instrument, discussion paper or resource for an organisation that supports the organisation's purpose and strategic goals.

---

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

The unit has an academic component (delivered through 6 seminars) and a practical component (students' research work for the organisation).

For the academic component students will be asked to:

- submit the required assessment tasks on time
- complete required readings
- attend all seminars (if unable to attend contact the unit convenor and alternative activity will be assigned for completion)

For the practical component of the unit students will be asked to:

- complete 150 placement hours with a partner organisation
- define a work schedule with their workplace supervisor and commit to it
- work on a research project according to the research plan they discuss with their workplace supervisor/s
- submit a final output of the research project to their organisation.
