Unit description

This unit will offer students an advanced understanding of the key role social media now plays in professional media practice and the way it is reshaping public debate and media business models. It will involve students in integrating emerging online platforms and technologies into media practice, including news gathering, feature and current affairs production, and opinion writing. Students will analyse the way mainstream media organisations are utilising social media to produce and augment media production and enlist media users in producing content. They will also examine the way social and online media have opened up new possibilities for media producers to bypass traditional media organisations and attract large audiences using blogs, Twitter and Youtube.

## Delivery and Resources

## Start of classes and tutorials

- Classes begin Week 2

## Delivery of unit

This unit will be delivered as two-hour interactive seminar. It will combine lecture-style material with guided inquiry, production tasks, writing workshops, small group activities and discussions.

For current updates, classrooms and times please consult the MQU Timetables website:  
<http://www.timetables.mq.edu.au>

Lecture portions and interactive portions of the class will be recorded for review purposes only. See Echo block on iLearn for filmed weekly lectures. Discussions and activities will be available via archived Zoom recording link.

## Attendance Policy

Students are expected to attend all seminars this semester. They may opt for either in-person attendance where feasible, or remote delivery via Zoom. No part of this class is optional: all lectures, workshops, and peer-review sessions deliver content and are a central component of meeting the learning outcomes in this unit. Although attendance is not formally graded, students who elect to not attend class will miss out on unit content and learning activities, and do so at their own risk.

## Readings and Other Media

Please consult the iLearn site for weekly readings and media

## Laptop Policy

Please DO bring your own devices for use in class (laptops or tablets + mobile phones). The library has laptops and iPads available for lending if you don't have your own.  
<http://www.mq.edu.au/about/campus-services-and-facilities/library/facilities/computer-facilities> and there are other computer labs on campus. Please also bring a pen or pencil and paper to class.

## Other Technology Matters

Students are expected to make use of everyday information technologies to complete their assignments (i.e. Personal Computers, mobile Phones, freely available editing software and online publishing platforms). As this is not a production unit, students should not contact the department's technical staff for equipment or support. Feel free to challenge yourself but work within your technical abilities.

## Feedback

Feedback in this unit is available in multiple forms:

- For points of relevance to the whole class, informal feedback will be given through the 'announcement' function in iLearn.
- For individual student questions related to unit activities, in-class and electronic

communication will be used.

- Students wishing to discuss unit content or assessments outside of class time are invited to join us for our weekly group office hour sessions via Zoom (day and time will be posted on iLearn.)
- For students wishing a private consultation regarding their assessments this semester, there will be two opportunities to book a short personal consultation session with Terri (on campus or over Zoom). Please note: these spots are limited and fill up quickly. Once they are gone, students will be encouraged to raise their requests for feedback during class time, or over Zoom during group office hour sessions.
- Students needing to discuss deeply personal matters (e.g., illness, hardships, disability accommodations etc.), are warmly invited to contact Terri at any time via email to set up time for a private discussion about how I can help support you.
- For assessment feedback: We make a special effort to devote blocks of time each week to workshopping in-process assessment materials, such as brainstorm documents, rough proposals, working drafts, etc. Historically, students who have garnered the highest marks in this unit are those who make use of this time in class to get feedback from Terri, and their peers. Conversely, students who receive lower marks in this unit tend to be those who cannot or will not share their in-process work for feedback, either due to time management issues (i.e., they haven't prepared anything to show), or for emotional reasons (e.g., they struggle with shyness, anxiety, perfectionism, etc.) If you are in this second group, fear not! We are your friends and we want you to succeed here. We have developed several ways to help students feel less anxious about connecting to classmates for feedback in this unit, and I look forward to sharing some of those with you.
- For assessment marks, students will receive numerical scores corresponding to a detailed rubric, attached to assignments marked in Turnitin.
