Unit description

This unit examines economic analysis concepts and tools that enable students to set an organisation's decision-making within its wider economic context. Topics include supply, demand, and market equilibrium; scarcity; exchange and trade; choice theory; theory of the firm; game theory and strategy; market structure; asymmetric information; market failures. The unit looks at economic variables and how rises and falls in these variables affect individuals, businesses, and industries. It also teaches students how to apply experimentation in organisations.
