Unit description

This is an introductory unit in finance and is a core part of the first year knowledge base in most programs. Students will examine the roles and interaction of participants in Australia's financial system and apply financial decision making tools to value and evaluate investment and financing opportunities. Students will learn about risk, the importance of cash flows and the various financial instruments traded in global financial markets, risk and regulation. Further, students will develop excel spreadsheet skills used by industry professionals.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the role of finance in the economy and apply its tools to make financial decisions.

ULO2: Explain the concepts of time value of money, risk and return.

ULO3: Apply discounted cash flow techniques to the valuation of financial instruments, including bonds, shares and loans.

ULO4: Evaluate investment and financing opportunities.

ULO5: Apply Excel spreadsheets to evaluate financial decisions.

General Assessment Information

Late Assessment Submission Penalty (written assessments)

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

Delivery and Resources

Learning and Teaching Activities

We look forward to seeing you in the weekly lecture (2 hours) and tutorials (1 hour)!

Tutorials start from week 2, lectures start from week 1

Lectures

We'll discuss some fascinating finance topics including stock investment, valuation and business projects! Each lecture we'll cover some theory and mathematical formulas, with practical examples of how both are applied in the real world and in the exams and assignments that you'll complete.

Tutorials

Tutorials are widely regarded as the best learning experience, with small classes led by expert and enthusiastic teachers. Students should register for a tutorial. Tutorial participation will be marked and assessed. Details will be available on ilearn.

Tutorial enrolment or change of tutorial can be made through *eStudent* in the first two weeks of the session. Students should attend their allocated tutorial, but exceptions may occur on a one-off basis. That is, where circumstances prevent you attending your own tutorial in a given week, you may attend an alternative tutorial if room is available. Please do **NOT** email the unit convenor or any member of the teaching team regarding changing of registered tutorials. We are unable to do this for you.

Additional learning support will be available during tutor consultation times!

Technology Used and Required

Calculator

A calculator will be required for the various calculations throughout the session, and for the Final Examination.

Scientific calculators need the following minimum functionality: x^y or $^$ functions. Non-programmable financial calculators are permitted too, but unnecessary.

Software

Students should have access to *Excel* software (version 2013 or more recent),

See <https://students.mq.edu.au/support/technology/service-desk/office-365> for instructions on how to get your free copy of Microsoft Office!

Knowledge of Maths

A background of HSC General Mathematics or equivalent numerical competency is assumed.

Students requiring assistance with the unit's mathematical elements throughout the term may consult with the *Numeracy Centre* team during appointed hours (no appointment needed). <https://students.mq.edu.au/support/study/numeracy>
