Unit description

This unit provides extended formal academic support for students concurrently enrolled in the Financial Risk Management unit of the CPA program. It provides knowledge, principles, skills and an appreciation of the treasury function in a corporate environment. It presents an overview of various aspects of treasury focusing on the identification and management of financial risks that organisations face. The unit also addresses investment evaluation, the sourcing of necessary funds for an organisation, and the application of and accounting for hedge instruments. In addition, the unit considers the need for suitable controls within the treasury function.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks

**ULO2:** Analyse practical elements of accounting for derivatives, including embedded derivatives used for hedging purposes

**ULO3:** Apply accounting standards for recording financial transactions

**ULO4:** Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

## General Assessment Information

### Late Assessment Submission Penalty

Unless an application for [Special Consideration](#) has been submitted and approved, a **5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted**, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests, exams, performance assessments, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

### Class participation

Assessment Type <sup>1</sup>: Participatory task

Indicative Time on Task <sup>2</sup>: 24 hours

Due: **Weekly**

Weighting: **10%**

Students are required to actively participate in class discussions both individually and in a group context when required. Prior preparation is necessary for active participation. The participation mark will be a result of attempting to participate, as well as the quality and frequency of that participation. Class participation is designed to encourage and help students achieve the learning outcomes of this unit.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives used for hedging purposes
- Apply accounting standards for recording financial transactions
- Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

## Class tests 1

Assessment Type <sup>1</sup>: Quiz/Test

Indicative Time on Task <sup>2</sup>: 20 hours

Due: **Week 5**

Weighting: **20%**

An online class test comprising of multiple-choice questions will be conducted in computer labs. This test is designed to provide feedback to students on their level of understanding of key topics and concepts covered and to identify any particular learning challenges or areas of difficulties.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
- Analyse practical elements of accounting for derivatives, including embedded derivatives used for hedging purposes
- Apply accounting standards for recording financial transactions
- Analyse the significance for companies having adequate controls to safeguard against financial loss and propose specific policies and procedures to reduce risk

## Class test 2

Assessment Type <sup>1</sup>: Quiz/Test

Indicative Time on Task <sup>2</sup>: 20 hours

Due: **Week 9**

Weighting: **20%**

An online class test comprising of multiple-choice questions will be conducted in computer labs. This test is designed to provide feedback to students on their level of understanding of key topics and concepts covered and to identify any particular learning challenges or areas of difficulties.

On successful completion you will be able to:

- Demonstrate an understanding of the different financial risks that companies face and formulate strategies to manage these financial risks
