Unit description
This unit develops a range of macroeconomic models with a focus on a selection of key contemporary issues. For example, the unit may include studying appropriate business cycle measurement and shocks, inflation targeting and alternative monetary policy frameworks, fiscal policy constraints, recurrent financial crises and the need for financial regulation, digital financial and technological innovations, population dynamics, climate change mitigation and the implications of growing inequality. Students will develop an understanding of the reasons for these sort of problems, and how key policy institutions such as the RBA, APRA and Treasury are addressing them.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Analyse and explain macroeconomic policy in a general framework.
ULO2: Appraise how monetary and fiscal policies are determined in the context of the current economic environment.
ULO3: Critically evaluate the effectiveness of current macroeconomic policy in achieving stated goals.

General Assessment Information
Late Assessment Submission Penalty (written assessments)
Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55 pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.
