**Unit description**

Students entering university can feel overwhelmed by how much reading they need to complete before synthesising and translating this information into their own written work. How can you read efficiently, for understanding and analysis? How do you transform what you have read into your own original writing that is clear and persuasive? In this unit you will learn how to read for information, understanding, and critique. You will be introduced to four techniques of reading: inspectional, analytical, syntopical, and close reading. You will then learn techniques of thesis-driven composition and improve your understanding of the ways in which sentences, paragraphs, and arguments are structured. Learn how to use others’ ideas to strengthen your claims without compromising your own voice as a writer.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [https://www.mq.edu.au/study/calendar-of-dates](https://www.mq.edu.au/study/calendar-of-dates)

On successful completion of this unit, you will be able to:
ULO1: Identify and apply appropriate techniques of reading to different academic tasks.
ULO2: Identify an author’s argument and explain it in your own words.
ULO3: Navigate the process of academic composition, from prewriting to proofreading.
ULO4: Create thesis-driven texts for academic and/or professional purposes.

General Assessment Information

Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of ‘0’ (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to written reports and recordings only. Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs) will be addressed by the unit convenor in a Special consideration application.
