Unit description

This course-wide Capstone unit is designed to be taken by students in their final session of study within the Bachelor of Business Administration. The unit provides a platform for students to exercise the discipline specific knowledge and skills that they have acquired within the course. The major component of the unit is a business-based team project, where students will actively engage with an organisation including but not limited to: not-for profit organisations, government agencies, companies, and industry partners. Group work engages students in the challenges of interpersonal communication, task allocation, coordination and control. Students will gain an insight into organisations and the challenges set (e.g., mergers and acquisitions, business diversification) and be able to contextualise their graduate capabilities into the final business project. Visit [Employability Connect](#) for important information on this unit.
