Attendance for undergraduate units

See the university timetable for information about when classes begin in this unit. <https://timetables.mq.edu.au/2024/>

Activities completed during weekly tutorials (DAY or ONLINE DAY mode) or on campus days (INFQ mode) are essential for building the core knowledge and/or skills required to demonstrate the learning outcomes of this unit [and to meet the AITSL Graduate Teacher Standards and/or ACECQA requirements]. Attendance at all tutorials or on campus days is expected and the roll will be taken. Make up tasks may be given if attendance is missed to ensure all content is covered to meet accreditation requirements.

convenor requesting a change.

Infrequent Attendance Students

Information about the dates of the on-campus sessions can be found in the university timetable.

[Creating your timetable - Enrolling | Macquarie University, Sydney \(mq.edu.au\)](https://mq.edu.au/creating-your-timetable-enrolling)

- The on-campus sessions are essential to student engagement and learning and attendance is expected. Failure to attend or to have an approved Special Consideration may result in a Fail grade for the unit.
- Prior to the on-campus sessions, you should have read the prescribed readings and listened to the lectures. Summarise the main points and make a note of the key terms and definitions. Prepare any discussion questions of your own that you wish to share.
- Please make effective use of the online component of the unit and access iLearn regularly. Keep up to date with listening to the lectures on a weekly basis.
- Further specific details and any updates about times and locations will be posted on iLearn as an Announcement during first half of the semester.

This unit is a part of a professional course listed on Schedules 2 and 3 of the Academic Progression Policy. This course has additional requirements that are applicable for the full duration of the course, including course-specific inherent requirements, Fitness to Practice requirements and other compulsory course requirements. It also has rigorous academic progression standards. Inability to meet these requirements may result in a withdrawal of offer of admission and/or permanent exclusion from the course in accordance with the General Coursework Rules.

5Rs Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout your teacher education course.

Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling.

In this unit, you will learn using the 5Rs framework in the following important ways:

Resilient

Teachers need to manage uncertain and complex issues and unexpected events when they arise in their career. We know teaching is challenging and demanding, however, it has been observed that teachers who thrive are able to draw on their personal resources and the social and structural supports around them.

Experiences outside comfort zones and engaging in potentially unfamiliar Creative Arts learning might be daunting and challenging and this unit gives students a safe space to navigate this alongside peers and build confidence and resilience.

Reflexive

Teaching is about understanding multiple and changing ecologies of learning: individual students' needs, the affordances of classroom spaces, student and teacher relationships, curriculum, research evidence, school culture, parental expectations, community demographics and needs, expectations of the profession, and government policy. Teachers must recognise and mediate these elements in their career, along with their own motivations and priorities, to make effective and impactful decisions that ensure quality student outcomes every day.

This unit engages students in planning learning experiences in the Creative Arts for a specific context, child and/or group of children in a school or prior-to-school setting. Students plan purposefully for the identified needs and interests of the children in the chosen context.

Responsive

Teaching is a relational profession: great teachers make deep connections with students, parents and communities. Most of us remember a great teacher we had at school: not because of the content they taught, but because they were inspiring; because of the connection they made with us, their interest in us as an individual, their care for our wellbeing and success.

This unit encourages students to collaborate and create meaningful learning experiences that are connected to children and their contexts.

Ready to learn

When teachers graduate from university they are not at the end of their learning journey, but at the beginning. Ongoing pursuit of learning is a mark of a quality teaching profession. There are always new challenges to deal with and new ideas to try. However, in practice, learning needs are not a one size fits all affair. Teachers need to identify their own learning needs for their context and they can pursue that learning to achieve great outcomes for all students.

This unit challenges students in workshops and assessments to step outside their comfort zone and embrace new learning and develop their confidence and skill in music, dance, drama, and visual arts.

Research engaged

Effective teachers base their practice on evidence. This evidence can come from their own research in the classroom and from the latest academic research in specialised areas of learning, teaching, motivation, cognition, curriculum, technologies and spaces to name a few. Understanding data is important so that it can be analysed and woven back into practice.

This unit requires students to engage with relevant, recent, and quality research literature through their assessment tasks, lectures, and prescribed readings.
