Unit description

This unit is the first of the two units in cost and management accounting that are required for accreditation with CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA). The unit explains how cost information is generated and used in organisations for decision making purposes. There are three main parts to the unit: 1) using costs for decision making; 2) costing techniques (job/process costing and cost allocations); and 3) budget setting and evaluating performance against the budget. By the end of the unit, students are able to distinguish between the various product costing techniques available, solve problems by identifying and selecting appropriate courses of action, and demonstrate an understanding of budgeting techniques and the behavioural issues associated with budgeting practices.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Distinguish between management and financial accounting and assess business operations using various product costing, budgeting and decision-making techniques

ULO2: Discuss and analyse management accounting issues and information.

ULO3: Use Microsoft Excel for fundamental managerial accounting planning, control and evaluation tasks.

ULO4: Apply appropriate management accounting concepts and techniques to formulate

informed solutions to business problems.

General Assessment Information

1. Assessed Coursework (30%)

Assessed coursework consists of two components: Weekly Assignment (15%) and Class Participation (15%).

Weekly Assignment

The weekly assignments require students to complete the weekly homework questions provided on iLearn. Students are required to submit their weekly assignment via Turnitin on iLearn by 11 am on Mondays. During the session, 5 weekly assignments will be randomly selected and assessed. A maximum of 3 marks will be awarded for each weekly assignment assessed.

Class Participation

Students' participation during each tutorial will be marked out of 1.5 marks each week, accounting for 15% of the total grade (N.B. Tutorials will commence in week 2 and no participation will be assessed in week 7 and week 13).

2. Class Test (50%)

Two online class tests will be conducted via iLearn in weeks 7 and 13 (PLEASE BRING YOUR LAPTOP TO CLASS). Further information will be provided via on iLearn.

No extension will be granted except for cases in which an application for special consideration is made and approved. A mark of zero will be awarded for non-submission.

3. Excel Assignment (20%)

Students are required to listen to an online lecture and study twenty (20) videos provided on iLearn regarding Excel skills. Students are required to complete and submit the Excel assignment via iLearn by 11:55pm on Monday 9 September (Week 8). More details about the Excel assignment will be available on iLearn in due course.

Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

- Apply appropriate management accounting concepts and techniques to formulate informed solutions to business problems.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Classes

Students should attend three hours of face-to-face/online teaching per topic consisting of a one-and-half hour lecture and a one-and-half hour tutorial. Students are advised to note that any changes to tutorial classes must be made online through eStudent. Students wishing to change their tutorial time should login to eStudent and enrol in a class where there is a vacancy. Staff members WILL NOT deal with tutorial changes unless there are exceptional circumstances. It is each student's responsibility to know which tutorial group they have been allocated to. Students will not be awarded any tutorial marks unless they attend the class in which they are formally enrolled.

Teaching and Learning Strategy

The course is structured around a 1.5 hour lecture and a 1.5 hour tutorial per topic. Lectures are intended to provide students with an overview of the main concepts and techniques. Lectures may not cover all of the material and students are expected to read all of the prescribed references prior to the lecture. Tutorials will be run on a workshop basis with students being given the opportunity to apply the concepts to additional problems and exercises. The tutorials are designed to provide an interactive environment in which students will be able to discuss issues and problems with each other, and their tutor, in order to improve their understanding of material. Regular class attendance, reading of prescribed references and the completion of tutorial and revision questions are essential for satisfactory progress in this course.

Lecture slides and additional material for tutorials and lectures will be available to download via

the unit website. Any other announcement regarding the unit will also be available from the website.
