Unit description

The aim of this unit is for students to understand the impact that information systems have on business processes and provides the foundation for further studies in accounting, audit and business information systems units. Topics covered include business processes, systems development, internal controls, ethics and cybersecurity, and the role of accounting, accounting information systems and information systems more broadly. The material is presented through a business lens, exploring the benefits and limitations of information systems in organisations. The emphasis in this unit is placed on students understanding the critical role that information systems play in supporting business functions. Students will evaluate the critical nexus between the business and the information systems functions to be able to take advantage of existing and emerging technologies. In this unit students will develop teamwork, presentation and critical thinking skills using case-based materials.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Evaluate the role of Information Systems and Accounting Information Systems in

supporting the business processes of an organisation

ULO2: Discuss the importance and benefits of systems development methodologies and evaluate the role of ethics and ethical decision making within the Accounting Information System context.

ULO3: Analyse risks and develop control plans pertinent to primary business activities.

ULO4: Demonstrate effective communication and interaction skills through the delivery of oral presentations and engagement in group discussions

Assessment Tasks

Name	Weighting	Hurdle	Due
Presentation	10%	No	Week 12
Experiential activity	45%	No	Week 3 - Week 12
Class Tests	25%	No	Week 8 and Week 13
Weekly Assignment	20%	No	Week 3 - Week 11

Presentation

Assessment Type ¹: Presentation

Indicative Time on Task ²: 10 hours

Due: **Week 12**

Weighting: **10%**

This assessment requires each student to deliver a presentation. The individual presentation is based on the content covered in the two group reports from the experiential activity.

On successful completion you will be able to:

- Evaluate the role of Information Systems and Accounting Information Systems in supporting the business processes of an organisation
- Discuss the importance and benefits of systems development methodologies and evaluate the role of ethics and ethical decision making within the Accounting Information System context.
- Demonstrate effective communication and interaction skills through the delivery of oral presentations and engagement in group discussions

Experiential activity

Assessment Type ¹: Practice-based task

Indicative Time on Task ²: 47.5 hours

Due: **Week 3 - Week 12**

Weighting: **45%**

This assessment requires students to apply the theoretical knowledge covered in their weekly lecture to devise and develop their own assigned companies.

There are two main components to this assessment: 1) Two group written reports (30%) 2) In-class participation and reflection task (15%)

On successful completion you will be able to:

- Evaluate the role of Information Systems and Accounting Information Systems in supporting the business processes of an organisation
- Analyse risks and develop control plans pertinent to primary business activities.
- Demonstrate effective communication and interaction skills through the delivery of oral presentations and engagement in group discussions

Class Tests

Assessment Type ¹: Quiz/Test

Indicative Time on Task ²: 15 hours

Due: **Week 8 and Week 13**

Weighting: **25%**

Two tests, completed in tutorials. Test 1 is based on materials covered in lectures and assigned readings from Week 1 to Week 7. Test 2 is based on materials covered in lectures and assigned readings from Week 8 to Week 12.

On successful completion you will be able to:

- Evaluate the role of Information Systems and Accounting Information Systems in supporting the business processes of an organisation
- Discuss the importance and benefits of systems development methodologies and evaluate the role of ethics and ethical decision making within the Accounting Information System context.

- Analyse risks and develop control plans pertinent to primary business activities.

Weekly Assignment

Assessment Type ¹: Participatory task

Indicative Time on Task ²: 40 hours

Due: **Week 3 - Week 11**

Weighting: **20%**

Each week students will need to complete homework and tasks in tutorials based on the materials covered in the previous week's lecture and assigned readings.

On successful completion you will be able to:

- Evaluate the role of Information Systems and Accounting Information Systems in supporting the business processes of an organisation
- Discuss the importance and benefits of systems development methodologies and evaluate the role of ethics and ethical decision making within the Accounting Information System context.
- Analyse risks and develop control plans pertinent to primary business activities.
- Demonstrate effective communication and interaction skills through the delivery of oral presentations and engagement in group discussions

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation
