Unit description
This unit focuses on the generation of information for internal decision making and examines how cost information is developed and used within organisations. A number of different costing and budgeting techniques are explained, and students are required to apply these techniques to case study scenarios. By the end of this unit, students will have developed a sophisticated level of understanding of which techniques are most appropriate in a particular situation. Students will also have developed their excel, problem-solving, communication and presentation skills.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:
ULO1: Apply management accounting concepts to assess and solve real-life case scenarios.
ULO2: Critically analyse data to determine the relevant information and costing techniques required to make decisions.
ULO3: Apply effective written and oral communication skills.
ULO4: Apply Excel spreadsheet functions to complete managerial accounting tasks.
ULO5: Explain the organisational environment in which a business operates including the design, structure and strategy aspects.
