Unit description

This unit focuses on the generation of information for internal decision making and examines how cost information is developed and used within organisations. A number of different costing and budgeting techniques are explained, and students are required to apply these techniques to case study scenarios. By the end of this unit, students will have developed a sophisticated level of understanding of which techniques are most appropriate in a particular situation. Students will also have developed their excel, problem-solving, communication and presentation skills.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
