Unit description
This unit, part 2 of the strategic business leader series, aims to provide knowledge regarding the external forces (behaviour of customers, initiatives of competitors, emergence of new laws and regulations) that shape the environment of an organisation. The unit is also concerned with the internal ambitions and concerns (desire for growth, design of processes, competency of employees, financial resources) that exist within an organisation. Specifically, the unit considers the factors relevant in establishing the strategic position of an organisation in the present and as predicted in the future using relevant forecasting techniques. It is primarily concerned with the impact of the external environment on an organisation, its internal capabilities and expectations, and how the organisation positions itself subject to these constraints.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates
