Unit description

This unit provides students with the analytical skills and techniques required to effectively construct diversified portfolios of securities. The unit prepares students for asset allocation management and performance assessment of diversified portfolios. Issues relating to the management of portfolios containing options, futures and other derivatives will also be examined.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Examine the investment decision making processes from the perspective of the portfolio manager.

ULO2: Define and critique various approaches to asset allocation.

ULO3: Compare and contrast the alternative asset allocation tools to construct portfolios and its role in industry practice.

ULO4: Source and analyse real financial data as applied to portfolio management and

work in groups and individually to communicate the findings clearly and effectively in a professional environment.

General Assessment Information

- Late Assessment Submission Penalty (written assessments)
- Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern. For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Delivery and Resources

Learning and Teaching Activities

The content for each week will comprise of a lecture recording and a set of tutorial questions (Problem Sets).

Lectures

A lecture recording will be uploaded each week. Lecture notes will be available on iLearn.

Tutorials

Students will need to register for a tutorial. Tutorials are considered compulsory but no marks are allocated. Tutorials will be available for most, but not all weeks of the session. In weeks where there aren't any live (on-campus or online) tutorials, a recording will be provided to cover the relevant material.

The tutorial schedule will be made available on iLearn.

Tutorial enrolment or change of tutorial can be made through *eStudent* in the first two weeks of the session. No tutorial changes are allowed after Week 2. Students should attend their allocated tutorial, but exceptions may occur on a one-off basis. That is, where circumstances prevent you from attending your own tutorial in a given week, you may attend an alternative tutorial if room available.

Students are expected to complete the '*Tutorial Questions*' as a self-directed study activity before attending a tutorial. Additional learning support will be available in tutor consultation times.

Timetable for classes can be found on the University web site at: <https://timetables.mq.edu.au>

Textbooks

Students are strongly recommended to purchase the following textbook:

- *'Efficiently Inefficient: How Smart Money Invests & Market Prices are Determined'*, Lasse Heje Pedersen, Princeton University Press

The above book is available for purchase online from Google Books as an ebook for \$27.79.
