Unit description
This unit applies finance theory to the context of operational decision-making and risk management in banking and financial intermediation. The major decision areas for banking management are covered within a regulatory and corporate responsibility framework. Major risks of banks and financial intermediation are being examined.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Examine how financial institutions provide a special set of services to households and firms.
ULO2: Explain how banks are regulated and why their risk-taking activities are subject to regulatory oversight.
ULO3: Evaluate the risks which banks face and demonstrate how these risks are managed.
ULO4: Assess adequacy of a bank's capital base.
General Assessment Information

Late Assessment Submission Penalty (written assessments)

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to apply for Special Consideration.

Delivery and Resources

Required technology: Non-programmable calculator.

Learning and teaching strategy: Classes typically consist of a two-hour lecture followed by a one-hour tutorial. Lectures are used to show how the topic fits into the overall unit aims and to establish theory principles. Tutorials are used to apply concepts to real world problems and review homework problems. Participation is strongly encouraged for you to check your progress towards achieving the learning outcomes for the unit.

Textbook: The textbook for the unit is Lange, H., Saunders, A. and Cornett, M.M. (2015), Financial Institutions Management: A Risk Management Approach, 4th edition, McGraw-Hill. Textbook material will be supplemented by articles and handouts. Chapters from the textbook and specified articles should be read prior to attending the scheduled lecture on that topic. Homework problems will be assigned at the end of lectures and should be completed before the tutorial the following week. Handouts and homework questions can be downloaded from the unit's iLearn site each week.

Online learning: iLearn (https://ilearn.mq.edu.au) provides the main online learning support. It is essential that you log in at least twice per week to keep abreast of unit-wide announcements and use the resources to supplement your learning. Lecture slides are available online beforehand for you to download from iLearn. Solutions to homework problems are made available online after the problems are discussed in the tutorial.
