Unit description

Global health recognises a holistic understanding of health that transcends borders and encompasses the links and transnational movements of people, materials and ideas. To affect change at the individual, community and global levels, we need to appreciate how human biology and health are shaped by the larger contexts in which they are embedded and the dynamic and uneven circulation of resources, technology, culture, values and people. In this unit, we will examine the role of social, political-economic and environmental forces that shape the patterning and the distribution of disease and health across communities and take a critical perspective when examining the underlying value systems in biomedical science, policy, health interventions, and global health practice. This unit offers a framework for understanding the complex ways that health and disease intersect within a range of global contexts, institutions and practices.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Synthesise the common anthropological, epidemiological, historical, policy, and political-economic approaches to major global health problems.

ULO2: Discuss and evaluate the major issues confronting global health, including their trends, determinants, and effect on individuals and populations.

ULO3: Describe the global burden of disease, emerging global health problems, the causes and control of epidemics, and communicable and non-communicable diseases at the global level.

ULO4: Identify the role of poverty, inequality, and structural violence in global health contexts and how health can be distributed unequally within and between populations.

ULO5: Describe the particular health needs of vulnerable populations.

ULO6: Identify and evaluate the complex role and impact of policy, global institutions, non-governmental organizations, and major funders in global health.

General Assessment Information

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-time sensitive assessment (incl. essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special Consideration application. Special Consideration outcome may result in a new question or topic.

Delivery and Resources

Seminars: Join your classmates for engaging and interactive postgraduate medical anthropology seminars! These sessions are designed for lively student participation, and your presence is key to making the most of this experience. In 2024, our seminars will take place in a dynamic active learning space. While recordings will be available for occasional absences, nothing beats the vibrant discussions and insights shared in person. We strongly recommend attending in person to fully experience the enriching conversations and collaborative atmosphere. We look forward to seeing you there!

Readings: Starting from Week 2, you are expected to immerse yourself in the weekly readings and share your insights with a brief summary before each seminar (see iLearn for detailed assessment information). These readings are your gateway to deeper understanding and meaningful discussions. You can find all the seminar readings on Leganto via iLearn, and they are also accessible through the MQ library website. Should you encounter any difficulty locating a reading (after perusing Leganto or searching the library database), don't hesitate to reach out to the library at lib.reserve@mq.edu.au or contact the unit convenor, Paul Mason, at paul.mason@mq.edu.au. We're here to support your learning journey and ensure you have all the resources you need!

Assessment submission: All written assessments will be submitted online via iLearn; your oral presentation will be during the seminar. See iLearn for details.
