Delivery and Resources

The tutorials/workshops for this unit are partially face to face and partially online. They switch to online because we assume you'll be hard at work doing your internships during that period.

We prefer that students find their own placement opportunities, but the PACE team will also post opportunities that we have pre-arranged. Students are expected to complete a min of 70 hours of work integrated learning with their host. Hours will be tracked and signed off by the project supervisor.
