Credit points
10

Prerequisites
Admission to MChiroprac and (CHIR3106 or CHIR316) or (CHIR6111 or CHIR603)

Corequisites

Co-badged status

Unit description
In this unit you will learn how to assess the function of the musculoskeletal system and design a rehabilitation program for conditions that may be managed by registered chiropractors in practice. You will be exposed to paradigms related to active care, the biopsychosocial model, the use of outcome measures, and clinical practice guidelines. Skills will be developed in patient-centred communication, physical and functional capacity assessment, and functional rehabilitation program design and implementation.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Apply key principles relating to exercise science and physical activity in relation to body functions, health, well-being, physical performance, and the prevention and management of disability.

ULO2: Describe, perform, and interpret physical and functional capacity assessments for the musculoskeletal system, and relate impairments or findings to presenting musculoskeletal conditions.

ULO3: Identify risks and barriers to behaviour change with respect to exercise participation for the prevention and management of common musculoskeletal conditions.

ULO4: Develop person-centered, goal-oriented exercise programs to target a variety of
musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.

**ULO5:** Demonstrate patient-centred communication, education, and coaching during patient assessment, management, and to aid behaviour change.

### General Assessment Information

General assessment Information Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

**Late Submissions**

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

<table>
<thead>
<tr>
<th>Number of days (hours) late</th>

</tbody>
</table>

Rehabilitation - Objective structured clinical evaluation (OSCE) 1

Assessment Type 1: Clinical performance evaluation
Indicative Time on Task 2: 6 hours
Due: Week 6
Weighting: 15%

Rehabilitation - Objective structured clinical evaluation (OSCE) 1

Refer to iLearn for details

On successful completion you will be able to:

- Describe, perform, and interpret physical and functional capacity assessments for the musculoskeletal system, and relate impairments or findings to presenting musculoskeletal conditions.
- Develop person-centered, goal-oriented exercise programs to target a variety of musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.
Rehabilitation Assignment 1

Assessment Type 1: Poster
Indicative Time on Task 2: 10 hours
Due: Week 8
Weighting: 10%

Academic poster presentation of current clinical guidelines / systematic reviews of a common condition that presents to chiropractic care.

On successful completion you will be able to:

• Describe, perform, and interpret physical and functional capacity assessments for the musculoskeletal system, and relate impairments or findings to presenting musculoskeletal conditions.
• Develop person-centered, goal-oriented exercise programs to target a variety of musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.

Rehabilitation - Objective structured clinical evaluation (OSCE) 2

Assessment Type 1: Clinical performance evaluation
Indicative Time on Task 2: 14 hours
Due: Week 13
Weighting: 25%

Refer to iLearn for details

On successful completion you will be able to:

• Describe, perform, and interpret physical and functional capacity assessments for the musculoskeletal system, and relate impairments or findings to presenting musculoskeletal conditions.
• Develop person-centered, goal-oriented exercise programs to target a variety of
musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.

Rehabilitation Assignment 2
Assessment Type 1: Report
Indicative Time on Task 2: 10 hours
Due: Week 11
Weighting: 10%

Exercise prescription based on a provided case study according to current clinical guidelines

On successful completion you will be able to:

• Apply key principles relating to exercise science and physical activity in relation to body functions, health, well-being, physical performance, and the prevention and management of disability.
• Identify risks and barriers to behaviour change with respect to exercise participation for the prevention and management of common musculoskeletal conditions.
• Develop person-centered, goal-oriented exercise programs to target a variety of musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.
• Demonstrate patient-centred communication, education, and coaching during patient assessment, management, and to aid behaviour change.

Rehabilitation Final Theory Exam
Assessment Type 1: Examination
Indicative Time on Task 2: 20 hours
Due: Exam Period
Weighting: 40%

Rehabilitation Final Theory Exam

On successful completion you will be able to:

• Apply key principles relating to exercise science and physical activity in relation to body functions, health, well-being, physical performance, and the prevention and management of disability.
• Identify risks and barriers to behaviour change with respect to exercise participation for the prevention and management of common musculoskeletal conditions.
• Develop person-centered, goal-oriented exercise programs to target a variety of musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.
• Demonstrate patient-centred communication, education, and coaching during patient assessment, management, and to aid behaviour change.
functions, health, well-being, physical performance, and the prevention and management of disability.

- Describe, perform, and interpret physical and functional capacity assessments for the musculoskeletal system, and relate impairments or findings to presenting musculoskeletal conditions.
- Identify risks and barriers to behaviour change with respect to exercise participation for the prevention and management of common musculoskeletal conditions.
- Develop person-centered, goal-oriented exercise programs to target a variety of musculoskeletal conditions within an evidenced-based framework, with consideration of biopsychosocial and lifestyle factors, and incorporation of passive care where appropriate.
- Demonstrate patient-centred communication, education, and coaching during patient assessment, management, and to aid behaviour change.

1 If you need help with your assignment, please contact:
   - the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
   - the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

Function Rehabilitation delivery is as follows:

- 2 - 2 hour Lectures per week being Thursday 1pm - 3pm and Friday 10am - 12pm
- 2 - 2 hour Tutorials per week being Monday either 9am-11am or 11am - 1pm and Friday either 12pm - 2pm or 2pm - 4pm

A workbook will be provided for the tutorial material

As a student enrolled in this unit, you will engage in a range of face-to-face learning activities, including lectures and tutorials. Details can be found on the iLearn site for this unit.

**Recommended Readings**

**Technology Used**

https://unitguides.mq.edu.au/unit_offerings/162939/unit_guide/print
Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

**Unit Schedule**

**Lectures (Start week 1) All online**

**Tutorials (Start week 2) Please attend your enrolled tutorial time**

- Monday 9am - 11am, or 11am - 1pm
- Friday 12pm - 2pm or 2pm - 4pm

A thorough unit schedule can be found on the iLearn page.

**Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central ([https://policies.mq.edu.au](https://policies.mq.edu.au)). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Assessment Procedure
- Complaints Resolution Procedure for Students and Members of the Public
- Special Consideration Policy

Students seeking more policy resources can visit Student Policies ([https://students.mq.edu.au/support/study/policies](https://students.mq.edu.au/support/study/policies)). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central ([https://policies.mq.edu.au](https://policies.mq.edu.au)) and use the search tool.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/admin/other-resources/student-conduct](https://students.mq.edu.au/admin/other-resources/student-conduct)

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- Student Advocacy provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.
IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
