Unit description
The recognition of the importance of children's first three years of life has led to an increasing awareness of the specialist nature of infant-toddler education and care services. This unit covers contemporary perspectives that can inform educational programs that aim to support infant-toddler development and learning. Students will build on prior knowledge about children's learning and development to critically reflect on research-based literature and examine its relevance in a range of infant-toddler early childhood programs. Students will design and create a research translation piece to deepen and demonstrate their understanding of the applicability of infant-toddler research to stakeholders in the context of infant and toddler education and care.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Demonstrate an advanced and critical understanding of the range of philosophical and theoretical approaches that inform infant-toddler services.

ULO2: Identify the implications of these approaches for specialised infant-toddler services and practitioners.

ULO3: Design, develop and evaluate the effectiveness of a research translation piece to
demonstrate the theoretical and practical implications of a chosen topic.

**ULO4:** Demonstrate professional responsibility of your own and others’ learning by providing and responding to supportive, informed and reflective feedback.

**General Assessment Information**

Please take note of the following important information

- Students should be aware of and apply the University policy on academic honesty (see: [https://policies.mq.edu.au/document/view.php?id=3](https://policies.mq.edu.au/document/view.php?id=3))

- Unless a Special Consideration (see: [https://students.mq.edu.au/study/assessment-exams/special-consideration](https://students.mq.edu.au/study/assessment-exams/special-consideration)) request has been submitted and approved, (a) a penalty for lateness will apply – 5 marks out of 100 credit will be deducted per day (5%) for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline. After the 7th day, a mark of 0 (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

- This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

- Please format assessments using 12-point font and 1.5 spacing.

- All assessments are submitted electronically. Turnitin plagiarism detection software is used to check all written assessments.

- Students can use Turnitin’s Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.

- Students should carefully check that they submit the correct file for an assessment as no re-submissions will be accepted after the due date and time, including instances where students upload an incorrect file in error.

- Word limits are strictly applied. Work above the word limit will not be marked.

- All assessments are marked using a rubric.
• Marking of all assessments is moderated by the Unit Convenor.

• Applications for extensions must be made via AskMQ (https://ask.mq.edu.au/).

• It is not the responsibility of unit staff to contact students who have failed to submit assessments. If you have any missing items of assessment, it is your responsibility to make contact with the unit convenor.

University policy on grading

Criteria for awarding grades for assessment tasks

Assignments will be awarded grades ranging from HD to F according to guidelines set out in the University's Grading Policy. For Professional Experience units the PE Report is marked as satisfactory or unsatisfactory and the Teaching Performance Assessment (in final PE units) is marked as not meets, meets or exceeds. The following descriptive criteria are included for your information.

Descriptive Criteria for awarding grades in the unit

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. Where any submitted assessment task is considered to be unsatisfactory in this regard, the highest possible final grade that can be awarded for the unit will be 45.

The unit content, delivered via unit readings and assignment tasks, is supported by VoiceThread interactive discussion / presentation forums, Zoom online webinar meetings and regular ilearn discussion forum tools.

This unit has a full web presence through iLearn. Students will need regular access to a computer and the Internet to complete this unit.

Weekly access to iLearn is compulsory for all students. Important assessment information will be posted here, as will other relevant unit notices and materials, including a reading template and guide to lecture note taking to assist your studies.

Various activities and materials for discussion and critical reflection are included and external students especially are encouraged to use this web component. Electronic links and suggested references will be included in the Resources section. Please check the iLearn unit regularly.

**Scheduled small group Zoom meetings** will be arranged at the beginning of the session.

- On the **5th of April**, students will engage in one Zoom session with the unit convener before their submission of assignment 2: Project proposal.
- Assignment 3 - Progress Presentation will take place on the **15th of May**.

These workshops have been timetabled and students are required to make themselves available at the specified times. However, the precise times for these sessions will be confirmed early in the study session should flexibility be required due to the availability and time-zones of students and the unit convener.

The 5Rs Framework and its applicability to this unit

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout your teacher education course. Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling. In this unit, you will learn using the 5Rs framework in the following important ways:

**Resilience:** You will find some of the content and expectations in this unit challenging. The academic staff are here to support, but you will need to demonstrate the resilience required to face these challenges and expand your knowledge and mind-sets.

**Reflexive:** You will be provided with opportunities to reflect on the evidence base about infant-toddler research and consider how this can effectively be applied in practical contexts. You will critically reflect upon the challenge of interpreting and translating complex research information so that its key messages are accessible to a wider community audience.

**Responsive:** You will be expected to engage in respectful and responsive dialogue with your student peers and the academic staff. You will also be expected to be responsive to feedback in order to extend your learning.

**Research-engaged:** Across the course of this unit, you will be engaging with research evidence about the nature and effectiveness of infant-toddler pedagogies and learning. You are expected to use this research evidence in your assignments, and use research processes to identify and interpret relevant data.

**Ready to learn:** In all aspects of this unit, you are encouraged to maintain an open mind and be prepared to extend your learning and views about the learning and teaching of our youngest citizens. Feedback from academic staff, both in the form of on-going discussion and assignment feedback, is designed to foster your ongoing learning, so we encourage you to take advantage of this feedback.
