Unit description
This unit examines the relationship between planning and development, with particular reference to NSW. This is a practice-based unit and provides an introduction to the legal basis for development approvals, various development consent pathways, an analysis of development assessment, and plans that provide the framework for assessment, such as State environmental planning policies, local environmental plans, development control plans. Students will learn to interpret plans and development proposals and understand how controls affect built outcomes.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Apply critical thinking and practical experience in the field of planning and development.

ULO2: Apply skills in the theory and practice of development assessment process in NSW.
ULO3: Apply a basic understanding of planning law and relevant planning instruments to development assessment.

ULO4: Use plan reading and evaluation skills to solve development problems.

General Assessment Information

Where can I find more information about assessment tasks?

The GEOP2080 iLearn page has more detailed instructions for each assessment item, marking criteria and rubric. The assessment folder includes useful resources and examples. In-class assessments will be conducted throughout the semester. Quizzes are time-sensitive tasks and will be available on iLearn for a limited amount of time. No late submissions or time extensions will be accepted for quizzes unless you have an approved special consideration request.

Late assessment penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of ‘0’ (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (e.g., essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Presentation expectations

- Assessment tasks (excluding quizzes) should be properly referenced using the APA7 system of referencing.
- Text should be a minimum of 11 point font and line spacing 1.5.
- When using images, cite the source, provide a label, and refer to them in your text.
- Proof read your work at least twice. High standards of spelling and correct grammar are expected.

Assessment marks and feedback

Individual marks and feedback to students will be provided via Turnitin. Feedback will include the rubric, intext comments and general feedback. You are encouraged to utilise these resources to develop your skills in subsequent assessments.
