Unit description

Being financially literate is a core competency for any business leader. The ability to know your numbers is essential whether you are running your own small business/startup or whether you are working in a large organisation. This unit offers a solid financial accounting and management accounting grounding to students. This knowledge allows students to understand the financial opportunities and challenges inherent in any business endeavor. Students will subsequently better understand the position and performance of initiatives undertaken in the context of the broader strategies and objectives of an organisation. Such an understanding will help students make critical cost-benefit trade-offs.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Define the components and the development of financial statements.

**ULO2:** Investigate and analyse financial statements in practice.

**ULO3:** Apply financial ratios for purposes of understanding and synthesising business position and performance.

**ULO4:** Apply a range of management accounting techniques to generate and evaluate complex ideas and concepts to improve decision making.

## General Assessment Information

### Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

### Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

### Word limits

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.
