### Unit description
This unit helps students understand the customer and the value they add to an organisation as well as how an organisation can benefit a customer. It introduces theories and techniques of marketing analytics in the context of various marketing decision-making environments. Students will explore the nature and role of digital and social marketing for generating customer value. The unit will introduce students to customer analytics and methods of segmentation to determine a customer's lifetime value to an organisation. Topics are reinforced by the use of actual marketplace data and analytics to measure and estimate the effects of an organisation's marketing effort.

## Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at [https://www.mq.edu.au/study/calendar-of-dates](https://www.mq.edu.au/study/calendar-of-dates)

## Learning Outcomes
On successful completion of this unit, you will be able to:

- **ULO1**: Analyse the concept of customer value and its importance to an organisation.
- **ULO2**: Explore the types of customer data that are collected, both by traditional and digital methods.
- **ULO3**: Examine the tools used and determine what works best to solve which problem.
ULO4: Use customer data to both understand the current situation and develop and drive strategy.
ULO5: Critically assess various digital and social marketing and their role in creating and measuring value.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Word limits

Anything beyond a stated assessment word limit (other than your reference list) may not be marked. Seek any further clarification from the unit convenor.

Developing a customer journey

Assessment Type ¹: Case study/analysis
Indicative Time on Task ²: 10 hours
Due: Week 3
Weighting: 40%
Length: 1,000 words (excl. references) for the activity analysis, plus a copy of your persona and your customer journey map. Format: PDF document including the information above in one file. Task: The purpose of this assignment is for you to examine how consumers use digital and traditional channels together as part of the purchase process. There are three parts to this assignment: You will need to select a product or service to analyse, determine a key target segment and develop a representative persona, and create a customer journey map based on that persona.

On successful completion you will be able to:

- Explore the types of customer data that are collected, both by traditional and digital methods.
- Examine the tools used and determine what works best to solve which problem.

**Refining a customer journey**

Assessment Type: Case study/analysis
Indicative Time on Task: 14 hours
Due: Week 6
Weighting: 60%

Length: 1,800 - 2,000 words (excl. references) for the analysis, plus a copy of your updated persona and your updated customer journey map. Format: PDF document including the information above in one file. Task: The purpose of this assignment is to help you develop a deeper understanding of how consumers use digital and traditional channels together as part of the purchase process. There are three parts to this assignment: Taking the persona and customer journey map you developed in the first assignment, you will need to conduct primary research in order to refine those outputs, analyse the results, and update your persona and customer journey map with the new information.

On successful completion you will be able to:

- Analyse the concept of customer value and its importance to an organisation.
- Explore the types of customer data that are collected, both by traditional and digital methods.
- Use customer data to both understand the current situation and develop and drive strategy.
- Critically assess various digital and social marketing and their role in creating and measuring value.
If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation.
