LING110 or LING111 or LING1111

Corequisites

Co-badged status

Unit description
In this unit we explore the incredible range of sounds that humans use to create language. We'll discuss how speech sounds are produced by the vocal mechanism, how different languages use different sets of sounds, and how speech sounds are structured in language. You'll learn about how speech gestures combine and overlap to generate sound that humans are uniquely able to interpret as sentences, words, syllables, consonants, and vowels. You'll learn how to use the International Phonetic Alphabet (IPA) to represent the sounds of the world's languages, and how to analyse sets of phonetic data to explore patterns of sound structure in language.
Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [https://www.mq.edu.au/study/calendar-of-dates](https://www.mq.edu.au/study/calendar-of-dates)

Learning Outcomes

On successful completion of this unit, you will be able to:

- **ULO1**: successfully use the International Phonetic Alphabet
- **ULO2**: perform broad (phonemic) and narrow (phonetic) transcription tasks
- **ULO3**: demonstrate an understanding of speech articulation
- **ULO4**: classify speech sounds through a thorough understanding of the major characteristics of vowels and consonants
- **ULO5**: show an understanding of the distinction between phonemes and allophones through problems in phonemic analysis
- **ULO6**: show some of the ways that languages and dialects differ in both their phoneme inventories and the pronunciation of their phonemes
- **ULO7**: demonstrate an understanding of the concept of coarticulation
- **ULO8**: illustrate the close relationships between phonetics/phonology and social factors
- **ULO9**: explain the structure of syllables and how phonotactic constraints result in different sets of legal syllables for different languages
- **ULO10**: demonstrate a basic understanding of the phonology of intonation
- **ULO11**: engage in a research rich environment

General Assessment Information

Lateeness

- Late submissions without an extension will receive a penalty of 3% of the total mark available for the assessment task per day including weekend days (i.e. this is 3% of the total marks possible for the task – NOT 3% of the marks the student received. For example, if the assessment task is worth 100 marks and you are two days late your mark for the task is reduced by 6 marks.)
- Late submission of an assessment task without an extension will not be accepted at all after the date on which marked assessment tasks have been released to the rest of the class. Any student with unsubmitted work at this date will receive a mark of 0 for the assessment task.
- Extensions will only be given in special circumstances, and can be requested by completing the Special Consideration request at ask.mq.edu.au and providing the

Assessment Type 1: Quiz/Test
Indicative Time on Task 2: 20 hours
Due: **Week 5**
Weighting: **20%**

The broad transcription tasks involves analysis of single words, short phrases and passages using the International Phonetic Alphabet (IPA) symbols specifically selected for the broad phonetic transcription of Australian English.

On successful completion you will be able to:
- successfully use the International Phonetic Alphabet
• perform broad (phonemic) and narrow (phonetic) transcription tasks
• show an understanding of the distinction between phonemes and allophones through problems in phonemic analysis
• explain the structure of syllables and how phonotactic constraints result in different sets of legal syllables for different languages

IPA Test
Assessment Type 1: Quiz/Test
Indicative Time on Task 2: 7 hours
Due: Week 7
Weighting: 10%

This is an online quiz which assesses the recognition and representation of sounds of the world’s languages.

On successful completion you will be able to:
• successfully use the International Phonetic Alphabet
• perform broad (phonemic) and narrow (phonetic) transcription tasks
• demonstrate an understanding of speech articulation
• classify speech sounds through a thorough understanding of the major characteristics of vowels and consonants

Narrow Transcription
Assessment Type 1: Quiz/Test
Indicative Time on Task 2: 20 hours
Due: Week 10
Weighting: 20%

The narrow phonetic/allographic transcription task involves analysis of single words, short phrases and a passage using the principles of the IPA.

On successful completion you will be able to:
• successfully use the International Phonetic Alphabet
• perform broad (phonemic) and narrow (phonetic) transcription tasks
• show an understanding of the distinction between phonemes and allophones through
problems in phonemic analysis
• demonstrate an understanding of the concept of coarticulation
• explain the structure of syllables and how phonotactic constraints result in different sets of legal syllables for different languages

Online Phonemic Analysis Quiz
Assessment Type 1: Quiz/Test
Indicative Time on Task 2: 7 hours
Due: Week 12
Weighting: 15%

This online Quiz involves phonemic analysis of language data to determine the phonemes and allophones in a set of corpora using standard procedures employed in phonology.

On successful completion you will be able to:
• successfully use the International Phonetic Alphabet
• show an understanding of the distinction between phonemes and allophones through problems in phonemic analysis

Exam
Assessment Type 1: Examination
Indicative Time on Task 2: 17 hours
Due: Exam Period - TBA
Weighting: 30%

The final 2 hour exam covers all major topics. The exam is in short answer format.

On successful completion you will be able to:
• successfully use the International Phonetic Alphabet
• demonstrate an understanding of speech articulation
• classify speech sounds through a thorough understanding of the major characteristics of vowels and consonants
• show some of the ways that languages and dialects differ in both their phoneme inventories and the pronunciation of their phonemes
• demonstrate an understanding of the concept of coarticulation
• illustrate the close relationships between phonetics/phonology and social factors
• explain the structure of syllables and how phonotactic constraints result in different sets of legal syllables for different languages
• demonstrate a basic understanding of the phonology of intonation

Research Participation
Assessment Type: 1: Participatory task
Indicative Time on Task: 2: 1 hours
Due: anytime by Week 13
Weighting: 5%

Research Participation involves participating as a research subject for 5% of the total unit credit. Research tasks that you can participate in are run by various members of the Linguistics, Psychology and Cognitive Science Departments including staff and research students. Research participation typically involves one hour of your time.

On successful completion you will be able to:
• engage in a research rich environment

1 If you need help with your assignment, please contact:
• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources
Materials
The learning and teaching strategies used in this Unit are structured around a textbook, an extensive set of interactive text, image and audio based online materials as well as pre-recorded video lectures (including associated Powerpoint presentations) and online or face-to-face tutorial participation.

Attendance
Lectures: in-person lecture every week
Tutorials: 1hr tutorial once a week; in-person session every week

**Tutorials commence in Week 1.** Each student will attend one tutorial per week. Attendance at tutorials (whether online or in-person) is expected and rolls will be taken. Learning the skill of phonetic transcription and the concepts necessary to gain a solid understanding of phonetics and phonology takes dedication, practice, and engagement. We are here to support your learning and we can only do this successfully through face to face contact with you to guide you through the materials. You must be prepared to attend and actively engage in the learning process with your teachers and peers.

**Unit Schedule**

- Week 1 - Introduction to Speech Production
- Week 2 - Consonants
- Week 3 - Vowels
- Week 4 - Syllables & Feet
- Week 5 - Airstream Mechanisms and Laryngeal Features
- Week 6 - Complex Articulations
- Week 7 - Phonemes and Allophones
- Week 8 - Coarticulation
- Week 9 - Narrow Transcription
- Week 10 - Phonemic Analysis
- Week 11 - Sociophonetics
- Week 12 - Intonation and Tone
- Week 13 - Revision

**Policies and Procedures**

Macquarie University policies and procedures are accessible from [Policy Central](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Assessment Procedure
- Complaints Resolution Procedure for Students and Members of the Public
- Special Consideration Policy

Students seeking more policy resources can visit [Student Policies](https://students.mq.edu.au/su)
Support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.edu.au) and use the search tool.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

**Academic Integrity**

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**The Writing Centre**

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian
Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- Student Advocacy provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.
