Unit description
This unit is an introduction to syntactic theory from the perspective of Chomsky's Universal Grammar. It introduces important grammatical phenomena and demonstrates how these phenomena can be studied in a systematic theoretical manner. Students will learn about the grammatical principles that constitute human languages and acquire the ability to analyse phrases and sentences using these principles.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: apply diagnostic tests to identify structural features of natural language syntax
ULO2: read and draw syntax trees and apply syntactic transformations
ULO3: apply the scientific method to test hypotheses about the structure of English and other languages
ULO4: explain arguments for and against the theory of Universal Grammar
ULO5: research and explain a topic of study in syntax
General Assessment Information

Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Late submissions for an assessment task will not be accepted once that assessment task has been marked and returned to students.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the special consideration policy. Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

### Quiz 1 and Quiz 2

**Assessment Type**: Quiz/Test  
**Indicative Time on Task**: 20 hours  
**Due**: **Week 4 and Week 9**  
**Weighting**: 30%

Tutorial quiz that covers essential material from previous weeks. Short answer quiz 40 minutes.

On successful completion you will be able to:

- apply diagnostic tests to identify structural features of natural language syntax
- read and draw syntax trees and apply syntactic transformations
- apply the scientific method to test hypotheses about the structure of English and other languages
- explain arguments for and against the theory of Universal Grammar

### Problem Sets 1-4

**Assessment Type**: Problem set  
**Indicative Time on Task**: 30 hours  
**Due**: **Weeks 6, 8, 10, 12**  
**Weighting**: 25%

Problem Sets 1–4 present students with data that they must analyse using syntactic theory. Short answer questions. Each problem set approximately 500 words.

On successful completion you will be able to:
Students will research and write an expository essay on a topic in syntax. Approximately 800 words.

On successful completion you will be able to:

- apply diagnostic tests to identify structural features of natural language syntax
- read and draw syntax trees and apply syntactic transformations
- apply the scientific method to test hypotheses about the structure of English and other languages
- explain arguments for and against the theory of Universal Grammar
- research and explain a topic of study in syntax

Final Exam

Final exam that covers unit work. Short answer questions. Two hour exam.

On successful completion you will be able to:

- apply diagnostic tests to identify structural features of natural language syntax
- read and draw syntax trees and apply syntactic transformations
- apply the scientific method to test hypotheses about the structure of English and other languages
• explain arguments for and against the theory of Universal Grammar

1 If you need help with your assignment, please contact:

• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources
Unit content will be provided in lectures and tutorials. There is no assigned textbook for this unit.
