Unit description

Introduction to media and communications addresses the major transformations and continuities in the media and communications environment. Students learn foundational frameworks that will help them gain a deeper understanding of rapidly changing media industries and practices. Through interdisciplinary, international, and historical frameworks, this unit explores a range of media forms from print, photography, cinema, and broadcast media, to digital technologies and practices. Through the analysis of mediated communications and media change, students develop knowledge of the structures of power that inform complex relationships between audiences and producers. Interrogating the role of media in everyday life, in both local and global contexts, the course offers a vital introduction to media and communications studies.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

General Assessment Information

Feedback

Feedback on assessments and student learning and performance will be provided in a range of ways. Students will receive formal individual feedback on their performance in assessments in the form of general comments, rubric, and in-text comments attached to assignments marked in Turnitin. They may receive further individual feedback from unit staff in email communication and personal consultations. Marks are made available in the Gradebook function in iLearn.

Late Submission and Special Consideration

Students with a pre-existing disability/health condition or prolonged adverse circumstances may be eligible for ongoing assistance and support. Such support is governed by other policies and may be sought and coordinated through [Campus Wellbeing](#) and Support Services.

The Faculty policy in relation to late assessment submissions is as follows:

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the

total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to written reports and recordings only. **Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs **will be addressed by the unit convenor in a Special consideration application.****

To be very clear:

- Unless you have applied for special consideration and had your application approved, for each day your assignment is late, 5 marks will be deducted. For example, if you submit your assignment 7 days late, 35 marks will be deducted, which means you will likely fail that assignment.
- If your assignment is more than 7 days late (including weekends), you will get 0 for your assignment.

These are serious penalties that will substantially alter your final grade and even determine whether you pass or fail this unit. Please make every effort to submit your assignment by the due date.

If you find you cannot submit your assignment on time, please apply for Special Consideration through AskMQ. Make sure you read Macquarie University's policy regarding Special Consideration requests before you apply: <https://students.mq.edu.au/study/assessment-exams/special-consideration>
