Unit description

This unit examines the crucial roles that forensic media play in news media organisations. It offers a brief history of the historical emergence of forensic media, tracking the development of the inked fingerprint, police mug shot, forensic photography and the establishment of criminal archives. It then examines the broad spectrum of contemporary technologies that are shaping the field of forensic media, including: forensic typical body charts, border technologies, satellite imaging and crisis mapping, CCTV, surveillance technologies and social media. It also examines the manner in which fictional television series, such as CSI, represent forensics and the manner in which they have influenced actual forensic practices. Forensic technologies have now become foundational for news organisations in order for them to illustrate and evidence their news stories – from social media apps to record and communicate unfolding newsworthy events to forensic satellite imaging to evidence humanitarian and environmental crises. This unit places forensic media within news media contexts in order to address the ethical, geopolitical and social questions that the use of such media raises.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: research and evaluate the historical, political and technological forces that have been constitutive in the emergence of forensic media.

ULO2: apply critical and analytical skills in the examination and evaluation of the key concepts and arguments that underpin the use of forensic media across different platforms and news organisations.

ULO3: analyse local and international perspectives on forensic media.

ULO4: apply critical argumentation skills in order to articulate and evidence different viewpoints on the social, geopolitical and ethical uses of forensic media.

ULO5: communicate the key ideas, issues and disciplinary debates on the use of forensic media across diverse platforms and contexts.

ULO6: apply ethical and socially responsible skills that demonstrate the ability to analyse and reflect on the ethical implications generated by the uses of forensic media in their respective geopolitical contexts.

General Assessment Information

IMPORTANT ASSESSMENT NOTICE: LATE PENALTY

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to written reports and recordings only. Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs) will be addressed by the unit convenor in a Special consideration application.

FINAL ESSAY

Assessment Type 1: Essay

Indicative Time on Task 2: 54 hours

Due: 01/11/2024 11.55pm

Weighting: 60%

Final essay to be electronically submitted via Turnitin.

NB: In your final essay, DO NOT write on the same topic as your tutorial presentation.

A formal essay that fulfils the conventions of the academic genre, including critical address of

key issues, analytical argumentation and buttressing of all assertions with relevant evidence.

References: There is no set number of references for this essay. The rule of thumb for academic essays is that you must include references that are relevant to the topic, that support and illuminate your arguments and that demonstrate your understanding of the key theoretical concerns of the topic and that evidence your own scholarship. So, draw on both Leganto sources and any other scholarly resources that work to strengthen your arguments and that demonstrate your scholarship.

Referencing Style: You are free to choose to use any standard academic reference style in the writing of your final essay, including Harvard, MLA, Chicago and so on. Just be sure to be accurate and consistent in the use of your chosen reference style and to always acknowledge all paraphrasing and direct quotation of sources.

Word Count: There is a 10% +/- on the 2000 word count. The final word count does not include the bibliography of texts you have referenced in the course of your essay.

On successful completion of your final essay you will be able to:

- research and evaluate the historical, political and technological forces that have been constitutive in the emergence of forensic media.
- apply critical and analytical skills in the examination and evaluation of the key concepts and arguments that underpin the use of forensic media across different platforms and news organisations.
- analyse local and international perspectives on forensic media.
- apply critical argumentation skills in order to articulate and evidence different viewpoints on the social, geopolitical and ethical uses of forensic media.
- communicate the key ideas, issues and disciplinary debates on the use of forensic media across diverse platforms and contexts.
- apply ethical and socially responsible skills that demonstrate the ability to analyse and reflect on the ethical implications generated by the uses of forensic media in their respective geopolitical contexts.

TUTORIAL PRESENTATION

Assessment Type 1: Presentation

Indicative Time on Task 2: 44 hours

Due: On the day of the scheduled presentation

Weighting: 40%

In the first tutorial of the semester, you will be assigned a tutorial presentation topic by your tutor. Please note: you must stage your tutorial presentation on the designated week that has

been assigned to you: for example, if you are assigned the Week 4 Forensic CCTV, then you must stage your presentation in the Week 4 tutorial. Failure to do so will incur the standard Faculty of Arts late submission policy—the only exception to this policy is if a student has submitted a Special Consideration application which has been approved.

The tutorial presentation task demonstrates a student's disciplinary knowledge and skills through verbal communication to the class.

For your tutorial presentation you are required to:

1. Select a topic from the tutorial schedule of topics and readings.
2. Identify the key issues and arguments as outlined in the lecture and relevant readings.
3. Evidence and illustrate your presentation of key issues and arguments with relevant audiovisual material, e.g., videos, images, interviews, case studies and so on.
4. In the course of your presentation, you must pose to the class probing questions on the topic's key issues in order to generate engaged discussion.
5. Keep your presentation to 15 minutes maximum time. There is no submission of print material to this assessment task. You will be assessed solely on your in-class presentation.

On successful completion you will be able to:

- research and evaluate the historical, political and technological forces that have been constitutive in the emergence of forensic media.
- apply critical and analytical skills in the examination and evaluation of the key concepts and arguments that underpin the use of forensic media across different platforms and news organisations.
- analyse local and international perspectives on forensic media.
- apply critical argumentation skills in order to articulate and evidence different viewpoints on the social, geopolitical and ethical uses of forensic media.
- communicate the key ideas, issues and disciplinary debates on the use of forensic media across diverse platforms and contexts.
- apply ethical and socially responsible skills that demonstrate the ability to analyse and reflect on the ethical implications generated by the uses of forensic media in their respective geopolitical contexts.

If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation.
