Unit description

This unit provides students with an introduction to fundamental elements of research design and quantitative research approaches within the business and economics. It seeks to develop students' understanding of the contexts in which quantitative research can be undertaken and the ability to analyse, conduct, and evaluate quantitative forms of research.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Review and interpret the basic rationale and application of relevant quantitative approaches and analyses in disciplinary contexts of management, accounting and marketing research.

ULO2: Formulate appropriate hypotheses and propose the most appropriate research design for a research project

ULO3: Use specific statistical techniques to analyse data and explain present results

General Assessment Information

Please note: No extension will be granted except in circumstances where an application for special consideration is made and approved. Special Consideration Policy can be found at <https://policies.mq.edu.au/document/view.php?id=136>.
