Unit description
This unit provides students with an introduction to fundamental elements of research design and quantitative research approaches within business and economics. It seeks to develop students' understanding of the contexts in which quantitative research can be undertaken and the ability to analyse, conduct, and evaluate quantitative forms of research.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Review and interpret the basic rationale and application of relevant quantitative approaches and analyses in disciplinary contexts of management, accounting and marketing research.

ULO2: Formulate appropriate hypotheses and propose the most appropriate research design for a research project

ULO3: Use specific statistical techniques to analyse data and explain present results
General Assessment Information

Please note: No extension will be granted except in circumstances where an application for special consideration is made and approved. Special Consideration Policy can be found at https://policies.mq.edu.au/document/view.php?id=136.

Research paper critique

Assessment Type 1: Essay
Indicative Time on Task 2: 23 hours
Due: 05/04/2024
Weighting: 15%

Students are given a research paper and are required to provide a 1500-2000 word critical review of the paper.

On successful completion you will be able to:

- Review and interpret the basic rationale and application of relevant quantitative approaches and analyses in disciplinary contexts of management, accounting and marketing research.

Research proposal

Assessment Type 1: Project
Indicative Time on Task 2: 45 hours
Due: 10/05/2024
Weighting: 30%

Students are required to develop a research proposal on a topic of their own choice using the survey method (in 3000-4000 words)
On successful completion you will be able to:

- Review and interpret the basic rationale and application of relevant quantitative approaches and analyses in disciplinary contexts of management, accounting and marketing research.
- Formulate appropriate hypotheses and propose the most appropriate research design for a research project

Data analysis and reporting

Assessment Type 1: Quantitative analysis task
Indicative Time on Task 2: 43 hours
Due: 02/06/2024
Weighting: 55%

Students are given a set of raw data in a general business discipline and they are required to apply a number of statistical techniques to analyse data, report and interpret the results.

On successful completion you will be able to:

- Use specific statistical techniques to analyse data and explain present results

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

This unit is structured around attendance at one 3-hour seminar per week. The class timetable can be found on the university web site https://timetables.mq.edu.au/. All important information including weekly seminar lectures, assessment details, important announcements and staff contact details can be found at the unit iLearn website. The following book is a compulsory textbook required for the unit.

The following book is recommended. It is available in the library. Some important chapters are
scanned and can be viewed via Leganto on iLearn.
