Unit description

This unit aims to teach the fundamentals of critical thinking and reasoning. Students will learn how to construct, analyse and critically evaluate arguments; how to detect common fallacies in reasoning; and how to think logically and creatively. We teach these skills by developing practical techniques for the evaluation of reasoning, and applying them to arguments from business, law, science, politics, philosophy and the media. Critical thinking skills are invaluable across all disciplines, and will benefit students in academic contexts and in life beyond university. All enrolment queries should be directed to Open Universities Australia (OUA): see www.open.edu.au

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Recognise the structure of arguments, and represent that structure in a clear standardised form.

ULO2: Differentiate between types of reasoning and the methods of evaluation appropriate to each.

ULO3: Appraise the arguments of others and represent them in a clear and standardised form.

ULO4: Construct well-reasoned arguments of your own.

ULO5: Apply the skills of critical analysis to arguments from a variety of contexts and disciplines.

General Assessment Information

Detailed assessment information and rubrics

Detailed information about each of the assessments, including rubrics and submission instructions will be available in the Assessment block in iLearn. Please make sure you read the assessment information carefully, watch the Guide to Assessment video, and post a message in the relevant Assessment forum if you have any questions.

Special Consideration

Requests for extensions should be submitted via a Special Consideration request, which is available in the <http://ask.mq.edu.au> portal. Your request should be submitted no later than five days after the due date and should be accompanied by appropriate documentation. Please see <https://students.mq.edu.au/study/assessment-exams/special-consideration> for further details and instructions. Read this information closely as your request may be turned down if you have not followed procedure, or if you have not submitted a request in a timely manner. The Macquarie University Special Consideration Policy can be found at the end of this document.

Late Assessment Submission Penalty

Unless a Special Consideration request has been submitted and approved, **a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted**, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). **Late submission of time sensitive tasks** (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) **will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.**

Academic Integrity

In Philosophy, academic honesty is taken very seriously, and a range of methods, including but not restricted to the use of Turnitin, are used to detect plagiarism. Misrepresenting someone else's work as your own may be grounds for referral to the Faculty Disciplinary Committee. If you have questions about how to properly cite work or how to credit sources, please ask the convenor for help and see also the Academic Integrity Policy <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/academic-integrity>

Note: All assignments in this unit are individual assignments. Collusion (unauthorised collaboration on individual assignments) is a breach of the Academic Integrity Policy. This includes sharing or making use of shared assignments, in person or online, including through file-sharing websites. If in doubt, contact a member of teaching staff.

A helpful resource if you would like to know more about referencing and avoiding plagiarism is Macquarie's Academic Integrity Module, available here: <https://students.mq.edu.au/support/study/skills-development>. You will need to complete this Module before accessing the unit content, if you have not already done so. More information is available in iLearn.

Policy on the use of ChatGTP and other Generative AI tools

See iLearn for the unit's policy on Generative AI. This will also be discussed in lectures. If you are uncertain, please contact a member of staff.

Academic Writing and Study Support

Macquarie University offers a number of services to help with academic writing, referencing and study skills. For details, see: <https://students.mq.edu.au/support/study/skills/assignments>

For information about policies related to Assessment, see *Policies and Procedures* section below.

Assessment Tasks

Name	Weighting	Hurdle	Due
Online Engagement	15%	No	Wks1-6: 11.55pm Sunday 29/9. Wks 7-12: 11.55pm Sunday 3/11
Standardisation task	25%	No	11.55pm Sunday 25/8
Peer Review	20%	No	11.55pm Sunday 15/9

Name	Weighting	Hurdle	Due
Final Scenario Report	40%	No	11.55pm Sunday 3/11

Online Engagement

Assessment Type **1**: Participatory task

Indicative Time on Task **2**: 25 hours

Due: **Wks1-6: 11.55pm Sunday 29/9. Wks 7-12: 11.55pm Sunday 3/11**

Weighting: **15%**

Students will review their understanding of particular topics by participating in short online “self assessment” and engagement tasks.

On successful completion you will be able to:

- Recognise the structure of arguments, and represent that structure in a clear standardised form.
- Differentiate between types of reasoning and the methods of evaluation appropriate to each.
- Appraise the arguments of others and represent them in a clear and standardised form.
- Construct well-reasoned arguments of your own.
- Apply the skills of critical analysis to arguments from a variety of contexts and disciplines.

Standardisation task

Assessment Type **1**: Problem set

Indicative Time on Task **2**: 25 hours

Due: **11.55pm Sunday 25/8**

Weighting: **25%**

Argument standardisation exercise

On successful completion you will be able to:

- Recognise the structure of arguments, and represent that structure in a clear standardised form.

- Appraise the arguments of others and represent them in a clear and standardised form.
- Construct well-reasoned arguments of your own.

Peer Review

Assessment Type ¹: Participatory task

Indicative Time on Task ²: 12 hours

Due: **11.55pm Sunday 15/9**

Weighting: **20%**

You will review the anonymised submissions (from the Standardisation Task assignment) of some of your fellow students. You will answer a series of multiple choice questions about each of these submissions, and give a short comment on each paper. Your mark will be determined by the accuracy of your assessment of the peer submissions.

On successful completion you will be able to:

- Recognise the structure of arguments, and represent that structure in a clear standardised form.
- Appraise the arguments of others and represent them in a clear and standardised form.

Final Scenario Report

Assessment Type ¹: Report

Indicative Time on Task ²: 40 hours

Due: **11.55pm Sunday 3/11**

Weighting: **40%**

The Final Scenario Report assignment requires you use all the skills you have acquired throughout the course from Topics 1-12 to write a report analysing arguments and providing guidance and material for a response.

On successful completion you will be able to:

- Recognise the structure of arguments, and represent that structure in a clear standardised form.
- Differentiate between types of reasoning and the methods of evaluation appropriate to each.
- Appraise the arguments of others and represent them in a clear and standardised form.
- Construct well-reasoned arguments of your own.

- Apply the skills of critical analysis to arguments from a variety of contexts and disciplines.
-

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Lectures

Lectures will be delivered live on campus from 3-5pm on Tuesdays of each week in the Lotus Theatre (27WW), and lectures will also be streamed and recorded for online students, and those unable to attend. **You will need to attend or watch the lectures before engaging in the forum discussion and activities each week.** Further instructions about accessing the lectures will be available in iLearn.

Tutorials and online forums

Students will enrol in PHIX1037 are enrolled in the **online flexible** offering of the unit, alongside online flexible students enrolled directly through Macquarie in PHIL1037. There is no difference between the PHIL1037 and PHIX1037 online offerings.

- 'Online flexible' students will discuss the content and work through exercises through weekly asynchronous forums in iLearn, rather than in scheduled tutorials. Online flexible students will be allocated to a forum group with a member of staff as group leader at the beginning of semester.

Course Texts

The Course Notes available through the PHIL/PHIX 1037 ilearn site constitute a text for the course. No other text is required.

Teaching staff consultation times

Teaching staff will be available for regular consultation times throughout the week on Zoom. See iLearn for details. You are strongly encouraged to make use of these consultation times, if you are having any trouble or if you would like to discuss the unit content. If you can't make any of those times, please contact Jenny Duke-Yonge (jennifer.duke-yonge@mq.edu.au) to arrange an appointment. Additional consultation hours will be available on campus and on zoom prior to

assessments.

Unit Webpages and E-Resources

This unit is delivered online through iLearn (<http://ilearn.mq.edu.au>). PC and Internet access are required. Basic computer skills (e.g., internet browsing) and skills in word processing are also a requirement. Please consult teaching staff for any further, more specific requirements.
