Unit description

This unit covers the completion of the Empirical thesis paper for which the design and ethics application were completed as part of PSY8990. This will be completed for on time submission under the direct supervision of their appointed Research supervisor from PSYC8990.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Design and conduct an empirical research project which has direct relevance for clinical psychology.

ULO2: Write an empirical paper in journal format suitable for a psychology journal.

General Assessment Information

General assessment Information Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy. All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor. Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause

128). To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final pass grade. Further details for each assessment task will be available on iLearn.

Late Submissions:

Unless a Special Consideration request has been submitted and approved, if submission occurs after the 7th day following the due date, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern. For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Illness or Significant Disruption to Assessments:

In the event of illness or significant disruptions during an examination or timed assessment, students must promptly cease their work. If the incident occurs in a classroom setting, they must inform the convenor/supervisor/invigilator immediately. If the disruption takes place outside the classroom, it should be reported immediately to the appropriate course authority. Subsequently, students are required to submit an application for special consideration. Students who have already submitted an assessment or participated in an examination or timed assessment without reporting any issues during the assessment process will only be considered for a second opportunity to undertake that assessment only under exceptional circumstances. The decision to grant a second opportunity will be evaluated on a case-by-case basis, with careful consideration given to the nature and validity of the exceptional circumstances that significantly affected their performance in the initial assessment. A statement of fact cannot suffice as evidence in such cases.

Assessment Tasks

Name	Weighting	Hurdle	Due
Empirical Journal paper	100%	No	2024-10-16

Empirical Journal paper

Assessment Type ¹: Thesis

Indicative Time on Task ²: 70 hours

Due: **2024-10-16**

Weighting: **100%**

The empirical journal paper is a write-up of your empirical research as if it were to be submitted to a journal for publication. The paper should be a minimum of 5000 and not exceed 8000 words.

On successful completion you will be able to:

- Design and conduct an empirical research project which has direct relevance for clinical psychology.
- Write an empirical paper in journal format suitable for a psychology journal.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

There are no timetabled classes for this unit. Each student is expected to work with their allocated/selected research supervisor. The Unit Convenors for this unit will be corresponding with students via iLearn to provide relevant information regarding the requirements of this unit.

Technology Used:

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Policies and Procedures

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses. As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect

for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
