General Information

Unit convenor and teaching staff
Jennifer Cornish
jennifer.cornish@mq.edu.au

Credit points
10

Prerequisites
Admission to MClinNeuro

Corequisites

Co-badged status
First 5 weeks of PSYC8987 and first 6 weeks of PSYN8845. This unit is needed to run to teach out 3 PSYN8841 students from MCLNPSY

Unit description
This unit provides an overview of the basic principles of neuropharmacology with particular emphasis on the disorders seen in the clinical practice of neuropsychologists and clinical psychologists. It begins with a review of basic principles and then covers the major neurotransmitter systems and how they are disordered in brain injury and psychological disorders such as depression, schizophrenia and the anxiety disorders.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Demonstrate knowledge of the neuropharmacology of common psychological disorders and pharmacotherapies for these disorders.

ULO2: Critically evaluate research literature and theoretical issues relevant to psychopharmacology.

ULO3: Effectively communicate concepts in psychopharmacology using information technology and in written and oral formats.

ULO4: Demonstrate self-awareness through identifying and setting targets for time management of assessment completion
ULO5: Critically evaluate the relevance and accuracy of neuroscience data in order to formulate evidence based arguments

General Assessment Information

Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

<table>
<thead>
<tr>
<th>Number of days (hours) late</th>
<th>Total Possible Marks</th>
<th>Deduction</th>
<th>Raw mark</th>
<th>Final mark</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 day (1-24 hours)</td>
<td>100</td>
<td>5</td>
<td>75</td>
<td>70</td>
</tr>
<tr>
<td>2 days (24-48 hours)</td>
<td>100</td>
<td>10</td>
<td>75</td>
<td>65</td>
</tr>
<tr>
<td>3 days (48-72 hours)</td>
<td>100</td>
<td>15</td>
<td>75</td>
<td>60</td>
</tr>
<tr>
<td>7 days (144-168 hours)</td>
<td>100</td>
<td>35</td>
<td>75</td>
<td>40</td>
</tr>
<tr>
<td>&gt;7 days (&gt;168 hours)</td>
<td>100</td>
<td>-</td>
<td>75</td>
<td>0</td>
</tr>
</tbody>
</table>

Late submission of time sensitive tasks, such as timetabled tests/exams, scheduled performance assessments/presentations, scheduled practical assessments/labs, will be addressed by the unit convenor in a Special consideration application.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due circumstances
that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the special consideration policy. Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

**Assessment Tasks**

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Hurdle</th>

<td>10%</td>
<td>No</td>
<td>During Week 9-12</td>
</tr>
<tr>
<td>In class presentation</td>
<td>15%</td>
<td>No</td>
<td>One of Week 9-12</td>
</tr>
<tr>
<td>Psychopharmacology essay</td>
<td>45%</td>
<td>No</td>
<td>26/05/2024</td>
</tr>
</tbody>
</table>

**In class test**

Assessment Type: Quiz/Test  
Indicative Time on Task: 25 hours  
Due: **Week 5, In class**  
Weighting: 30%

Forty multiple choice questions in 1 hour

On successful completion you will be able to:

- Demonstrate knowledge of the neuropharmacology of common psychological disorders and pharmacotherapies for these disorders.
- Demonstrate self-awareness through identifying and setting targets for time management of assessment completion

**Class participation**

Assessment Type: Participatory task  
Indicative Time on Task: 24 hours  
Due: **During Week 9-12**  
Weighting: 10%

Students are expected to participate in class discussions particularly during oral presentations to foster an understanding and critical evaluation of research papers that are read prior to class

On successful completion you will be able to:

- Demonstrate knowledge of the neuropharmacology of common psychological disorders and pharmacotherapies for these disorders.
• Critically evaluate research literature and theoretical issues relevant to psychopharmacology.
• Effectively communicate concepts in psychopharmacology using information technology and in written and oral formats.
• Demonstrate self-awareness through identifying and setting targets for time management of assessment completion
• Critically evaluate the relevance and accuracy of neuroscience data in order to formulate evidence based arguments

In class presentation
Assessment Type ¹: Presentation
Indicative Time on Task ²: 20 hours
Due: One of Week 9-12
Weighting: 15%

Students are required to present and critique a journal article in oral format for 10 minutes

On successful completion you will be able to:
• Demonstrate knowledge of the neuropharmacology of common psychological disorders and pharmacotherapies for these disorders.
• Critically evaluate research literature and theoretical issues relevant to psychopharmacology.
• Effectively communicate concepts in psychopharmacology using information technology and in written and oral formats.
• Demonstrate self-awareness through identifying and setting targets for time management of assessment completion
• Critically evaluate the relevance and accuracy of neuroscience data in order to formulate evidence based arguments

Psychopharmacology essay
Assessment Type ¹: Essay
Indicative Time on Task ²: 45 hours
Due: 26/05/2024
Weighting: 45%

Students submit a 1500 word essay on a contemporary psychopharmacology topic.

On successful completion you will be able to:
• Demonstrate knowledge of the neuropharmacology of common psychological disorders
and pharmacotherapies for these disorders.

• Critically evaluate research literature and theoretical issues relevant to psychopharmacology.

• Effectively communicate concepts in psychopharmacology using information technology and in written and oral formats.

• Demonstrate self-awareness through identifying and setting targets for time management of assessment completion

• Critically evaluate the relevance and accuracy of neuroscience data in order to formulate evidence based arguments

If you need help with your assignment, please contact:

• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment

• the Writing Centre for academic skills support.

Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

As a student enrolled in this unit, you will engage in a range of face-to-face learning activities, including readings, online resources, videos and lectures. Details can be found on the iLearn site for this unit.

Recommended Readings

Any Psychopharmacology textbook is appropriate. A free on-line resource from the library is 'Fundamentals of Psychopharmacology' by BE Leonard. Lectures will detail other readings you may like to engage with to deepen your understanding of the topic.

Technology Used

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Unit Schedule

Week 1 (Feb 20th): Review of basic physiology & pharmacology

Week 2 (Feb 27th): Substance Use Disorder, Schizophrenia
Week 3 (March 5th): Anxiety, Affective Disorders

Week 4 (March 12th): ADHD, Autism

Week 5 (March 19th): In class examination (on week 1-4 inclusive)

Week 6 (March 26th): Neuroplasticity, Alzheimer’s Disease

Week 7 (April 2nd): Parkinson’s Disease

Week 8 (April 9th): Journal Paper Discussion

SESSION BREAK

Week 9 (April 30th): Student Presentations/Discussion

Week 10 (May 7th): Student Presentations/Discussion

Week 11 (May 14th): Student Presentations/Discussion

Week 12 (May 21st): Student Presentations/Discussion

Week 13 (May 28th): ESSAYS DUE Sunday June 2nd - no lecture

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
• Fitness to Practice Procedure
• Assessment Procedure
• Complaints Resolution Procedure for Students and Members of the Public
• Special Consideration Policy

Students seeking more policy resources can visit Student Policies (https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.edu.au) and use the search tool.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

• Workshops
• Chat with a WriteWISE peer writing leader
• Access StudyWISE
• Upload an assignment to Studiosity
• Complete the Academic Integrity Module
The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- Student Advocacy provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability
As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
