Unit description

This unit introduces some of the most interesting topics in psychology and psychologists as "scientist-practitioners". In this unit we will study the areas of health psychology, social psychology, developmental psychology, organisational psychology, perception, and cognition. A demonstration will be provided of how both basic and applied research is utilised in day-to-day life.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- ULO1:** Demonstrate knowledge of a range key concepts in psychology.
- ULO2:** Demonstrate effective and appropriate use of information technology.
- ULO3:** Apply critical thinking and research skills.
- ULO4:** Critically analyse key relevant concepts in psychology.
- ULO5:** Show an awareness of the range of ethical issues in psychology.
- ULO6:** Demonstrate effective communication skills.

General Assessment Information

Grade descriptors and other information concerning grading are contained in the [Macquarie University Assessment Policy](#).

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the [Assessment Procedure](#) (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

The final exam for this unit will take place on Macquarie University campus. Students are expected to make themselves available for the final exam, at the date and time set by the University, in line with the Assessment Policy and Procedure.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Number of days (hours) late	Total Possible Marks	Deduction	Raw mark	Final mark
1 day (1-24 hours)	100	5	75	70
2 days (24-48 hours)	100	10	75	65
3 days (48-72 hours)	100	15	75	60
7 days (144-168 hours)	100	35	75	40
>7 days (>168 hours)	100	-	75	0

Late submission of time sensitive tasks, such as timetabled tests/exams, scheduled performance assessments/presentations, scheduled practical assessments/labs, will be addressed by the unit convenor in a Special consideration application.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the [special consideration policy](#). Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

Delivery and Resources

As a student enrolled in this unit, you will engage in a range of online and face-to-face learning activities, including readings, online modules, videos, lectures and tutorial discussions and activities.

Students who have enrolled as "online" students will attend their tutorials in real time over zoom and those who enrolled as "in person" students will attend their tutorials in real time on-campus. All face-to-face tutorials in this unit commence in WEEK 2. A self-paced online tutorial is available in week 1 to introduce you to important study skills. It must be completed in your own time by the end of week 2.

The lectures will be delivered online via active learning modules comprising video lectures and other activities. These can be located in the weekly blocks on the iLearn page. They will be made available the Friday before the relevant week (ie the week 1 lecture will be made available the Friday before week 1, the week 2 lecture will be made available the Friday before week 2 etc).

Details can be found on the iLearn site for this unit.

Recommended Readings

1. *Revel Psychology: From Inquiry to Understanding* (Lilienfeld et al., 2018, 3rd edition).
2. *How to Write Psychology Research Reports and Assignments* (Kaufman & Findlay, 2021, **10th** edition).

Please note that these are the same textbooks used in *PSYU/PSYX 1101: Introduction to*

Psychology I and if you have already purchased these for that unit they can be used for PSYU/PSYX1102 as well. If you purchased the e-text in first semester *this* year you will not need to purchase this again for second semester this year.

Technology Used

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Unit Schedule

The lectures in this unit will be delivered online via active learning modules on the unit ilearn page and will be made available the Friday before the relevant week (ie the week 1 lecture will be made available the Friday before week 1, the week 2 lecture will be made available the Friday before week 2 etc). Please see the unit ilearn page for details.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Inclusion & Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display

appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are **expected to attend all small group interactive sessions** including tutorials, clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
