Unit description

This unit provides an advanced introduction to core social theories and is open to students from all disciplines. The focus is on the relationship between social theory and empirical research as an essential and meaningful skill for postgraduate research in various disciplines. The candidate will acquire an advanced understanding of social theory and an awareness of how theory is informed by but also informs empirical research. The design of the unit takes into account students' own research plans and designs and provides them with the competence to apply both theoretical and empirical research skills.
