Prerequisites

SPTH8836 and SPTH8837

Corequisites

Co-badged status

Unit description

In this unit, students will explore advanced issues for speech pathology practice with people who speak a language other than, or additional to, Standard Australian English, including Aboriginal and Torres Strait Islander peoples. Multilingualism and its implications for communication disability will be addressed with a view to promoting conceptually sound and ethical speech pathology assessment and intervention.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Critically analyse and report on the characteristics of a language other than Standard Australian English, focusing on aspects of language and communication that are consequential for speech pathology practice

ULO2: Critically analyse the suitability of current speech pathology assessment and intervention strategies for people who speak a language other than or additional to standard Australian English, including Australian Aboriginal and Torres Strait Islander people

ULO3: Describe and analyse the implications of multilingualism across the lifespan, focusing on issues relevant for communication disability and speech pathology practice.

ULO4: Select and justify appropriate speech pathology assessment and intervention for people who speak a language other than or additional to standard Australian English, with particular reference to the characteristics of the client's language(s).

ULO5: Select and justify strategies relevant for successful collaboration between speech pathologists, other relevant professionals (e.g., interpreters, teachers) and clients to support speech pathology practice

General Assessment Information

Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Number of days (hours) late	Total Possible Marks	Deduction	Raw mark	Final mark
1 day (1-24 hours)	100	5	75	70
2 days (24-48 hours)	100	10	75	65
3 days (48-72 hours)	100	15	75	60
7 days (144-168 hours)	100	35	75	40
>7 days (>168 hours)	100	-	75	0

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

Word limits

Assessment submissions with excessive word counts will receive a penalty commensurate with the amount the submission has exceeded the word limit stated in the assessment description. Excessive word counts will result in the following penalties:

- From 11 to 20% over the word limit = reduction by one grading band.
- More than 20% over the word limit = reduction by at least two grading bands, with further penalties applied at the discretion of the unit convenor.

For example: Word limit = 2000 words; Submission word count = 2240, i.e., 12% over the limit, and therefore a penalty is applied as follows:

- Initial grade = D
- · Penalty = reduction of one grading band
- Final grade = C

Assessment Tasks

Name	Weighting	Hurdle	Due
Case-based assessment: Assessment	30%	No	Week 12
Case-based assessment: Intervention	30%	No	Week 14
Critical analysis: Language group	40%	Yes	Week 7

Case-based assessment: Assessment

Assessment Type 1: Case study/analysis Indicative Time on Task 2: 23 hours

Due: Week 12 Weighting: 30%

In this assessment task, students will be provided with case information relating to people who are multilingual and are experiencing communication disorders. They will be also be provided with clinical scenarios, and asked to develop plans relating to speech pathology assessment for them. The assessment task will require them to integrate and synthesise case information, case data, theory, research evidence, and routine speech pathology practices in order to formulate plans.

On successful completion you will be able to:

- Describe and analyse the implications of multilingualism across the lifespan, focusing on issues relevant for communication disability and speech pathology practice.
- Select and justify appropriate speech pathology assessment and intervention for people
 who speak a language other than or additional to standard Australian English, with
 particular reference to the characteristics of the client's language(s).
- Select and justify strategies relevant for successful collaboration between speech
 pathologists, other relevant professionals (e.g., interpreters, teachers) and clients to
 support speech pathology practice

Case-based assessment: Intervention

Assessment Type 1: Case study/analysis Indicative Time on Task 2: 23 hours

Due: Week 14 Weighting: 30%

In this assessment task, students will be provided with case information relating to people who are multilingual and are experiencing communication disorders. They will be also be provided with clinical scenarios, and asked to develop plans relating to speech pathology intervention for them. The assessment task will require them to integrate and synthesise case information, case data, theory, research evidence, and routine speech pathology practices in order to formulate plans.

On successful completion you will be able to:

- Describe and analyse the implications of multilingualism across the lifespan, focusing on issues relevant for communication disability and speech pathology practice.
- Select and justify appropriate speech pathology assessment and intervention for people
 who speak a language other than or additional to standard Australian English, with
 particular reference to the characteristics of the client's language(s).
- Select and justify strategies relevant for successful collaboration between speech
 pathologists, other relevant professionals (e.g., interpreters, teachers) and clients to
 support speech pathology practice

Critical analysis: Language group

Assessment Type 1: Case study/analysis

Indicative Time on Task 2: 31 hours

Due: Week 7 Weighting: 40%

This is a hurdle assessment task (see <u>assessment policy</u> for more information on hurdle assessment tasks)

In this assessment task, students will critically describe characteristics of a language other than Standard Australian English, focusing on ones that are relevant for speech pathology assessment and intervention. They will also identify and critically describe resources available to support practice with this language. Students will be assigned a language based on demographic data aligned with location of the concurrent clinical placement, or will be able to nominate a language based on its personal relevance.

On successful completion you will be able to:

- Critically analyse and report on the characteristics of a language other than Standard Australian English, focusing on aspects of language and communication that are consequential for speech pathology practice
- Critically analyse the suitability of current speech pathology assessment and intervention strategies for people who speak a language other than or additional to standard Australian English, including Australian Aboriginal and Torres Strait Islander people
- Select and justify appropriate speech pathology assessment and intervention for people
 who speak a language other than or additional to standard Australian English, with
 particular reference to the characteristics of the client's language(s).

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

Delivery and Resources

Students will participate in 2 hour lectorial classes blending teacher-fronted delivery with small group activities. Students will be expected to engage with learning materials before attending and participate in weekly classes, and then to complete learning activities following class. All scheduled learning activities will occur over the standard 13 weeks of the session.

¹ If you need help with your assignment, please contact:

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Technology Used

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- · Academic Progression Policy
- Assessment Policy
- · Fitness to Practice Procedure
- · Assessment Procedure
- · Complaints Resolution Procedure for Students and Members of the Public
- · Special Consideration Policy

Students seeking more policy resources can visit Student Policies (https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.e du.au) and use the search tool.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mg.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe <u>academic integrity</u> – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free <u>online writing and maths support</u>, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- · Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- · Subject and Research Guides
- Ask a Librarian

Student Services and Support

Macquarie University offers a range of **Student Support Services** including:

- IT Support
- · Accessibility and disability support with study
- Mental health support
- <u>Safety support</u> to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- Student Advocacy provides independent advice on MQ policies, procedures, and processes

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/ offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the <u>Acceptable Use of IT Resources Policy</u>. The policy applies to all who connect to the MQ network including students.

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
