Unit description

Major issues facing Australia and the world today - including poverty, food security, climate change, inequality, the platform economy, digital surveillance, cyber crime, automation, refugee resettlement, global health and more - invariably have a social dimension. How can we respond to these complex and important issues without understanding them? This unit searches for insights into contemporary issues by surveying the social sciences. This unit has three parts. The first part introduces social science as a field of inquiry, tracing pivotal historical developments and asking what it means to think socially. The second part explores a series of contemporary issues, highlighting the distinct contributions that the social sciences offer our understanding of recent transformations. And, by reflecting on our explorations of contemporary issues, the third part concludes the unit by drawing out the close relationship between theory, methods and analysis for social science practice today. From the three parts of this unit, you will gain an insight into social scientific inquiry and contemporary issues facing our society.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: demonstrate foundational knowledge of the relationship between theory and

methodology in social scientific inquiry

ULO2: evaluate the contributions that social science makes to practical knowledge of the world around us

ULO3: discuss the insights that social science theories and methodologies provide to understanding a major social issue

ULO4: communicate understanding of social science theories and methods by effectively using academic and professional writing formats.

General Assessment Information

Academic Integrity

Academic Integrity is an integral part of the core values and principles contained in the Macquarie University Ethics Statement. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- All academic work claimed as original is the work of the author making the claim
- All academic collaborations are acknowledged
- Academic work is not falsified in any way
- When the ideas of others are used, these ideas are acknowledged appropriately
- Self-plagiarism (resubmitting your own work - including past assignments for this or other units - without attribution) is an unacceptable academic activity

University Grading Policy

The grade that a student receives will signify their overall performance in meeting the learning outcomes of the unit of study. Graded units will use the following grades

HD	High Distinction	85-100
D	Distinction	75-84
Cr	Credit	65-74
P	Pass	50-64
F	Fail	0-49

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University.

Return of Marked Work

As per university policy, written assessments will be returned to students within three weeks of the submission date. Early assignments will not be marked early.

Special Consideration (Extensions)

The University recognises that students may experience events or conditions that adversely affect their academic performance. If you experience serious and unavoidable difficulties at exam time or when assessment tasks are due, you can consider applying for Special Consideration.

You need to show that the circumstances:

1. were serious, unexpected and unavoidable
2. were beyond your control
3. caused substantial disruption to your academic work
4. substantially interfered with your otherwise satisfactory fulfilment of the unit requirements
5. lasted at least three consecutive days or a total of 5 days within the teaching period and prevented completion of an assessment task scheduled for a specific date.

More information about Special Consideration is available in the Policies and Procedures section of the unit guide.

Late Penalties

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-time sensitive assessment (incl. essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special Consideration application. Special Consideration outcome may result in a new question or topic

Student Wellbeing

Macquarie University offers a range of wellbeing services (including [but not limited to]: health, welfare, counselling, disability and student advocacy services) that are available to you at any

time during your studies. Campus Wellbeing is here to support you and help you succeed, both academically and personally. More information is available in the Policies and Procedures section of the unit guide.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Unit Sessions

Lectures will be recorded and become available online via iLearn.

Tutorials will be replaced by weekly online discussion forums (as the unit runs in fully online mode only this semester). Please be sure to participate regularly and see the rubric on iLearn for more information on the assessment criteria.

Required and recommended resources

The required textbook for SSCI1000 is *The Quick Fix Guide to Academic Writing: How to Avoid Big Mistakes and Small Errors* by Phillip C. Shon.

This book is available from major retailers and in e-book form on major platforms. The e-book can also be accessed via the university library website.

Other required readings are online available via Leganto (see below).

Technology used

The following technologies are used in this unit...

Email

Make sure that you regularly check your student email for correspondence with teaching staff and course announcements. At the very least, please take care to check your email every week of semester.

iLearn

Important information about the weekly schedule, course readings and assessment are all available on the course *iLearn* page. If you do not have access, please contact IT help. You are required to check iLearn and your student email regularly for course updates and information.

Turnitin

All written assessments need to be submitted online via Turnitin only. A link to Turnitin is available via the Assessments tab on the iLearn page. Please contact the convenor if you cannot find it (do not leave it until the day of the assessment). There is no need to submit a hard copy of the assessment or to include a cover sheet.

Grademark

Feedback will be made available online via GradeMark. It will take four forms (in no particular order): specific comments in the text of your paper; overall comments; a score on a qualitative rubric (that cannot be used to calculate your mark numerically); and a numeric score. Once you have received your assignment back, please make sure that you have access to these forms of feedback.

Leganto

Leganto is the electronic system for accessing unit readings that can be accessed via the iLearn page. Readings are allocated via topic. As well as the required readings for each topic, you will find recommended and optional readings. The required readings are available in pdf or electronic format. If you are not able to access the readings, please contact the unit convenor via email.

Unit Schedule

Unit Schedule

The following table identifies the weekly topics for SSCI1000. Lectures and tutorials will be held from weeks 1 to 12 (inclusive). In weeks 1 and 2, we introduce the social sciences as a field of inquiry. From weeks 3 to 11, each lecture have two parts. The first half of each lecture introduces key terms and concepts of social inquiry, then the second half explains how these terms and concepts are applied in exemplary social science studies on contemporary social issues. In week 12, we conclude the lectures by presenting an overview of what we have

covered and discuss implications for social science. Finally, in week 13, careers information and self-help resources have been made available for your perusal. More information can be found about the weekly topics and required readings on the unit iLearn page.
