Unit description

From the steam engine and Maxim gun, to electricity, computers, and Artificial Intelligence, technology has played a foundational role in global transformations. This unit explores how these technological tools, devices and systems have historically mediated power and are emblematic of socio-political and economic divisions. It further considers how contemporary advances in communications, science and artificial intelligence are generating a new era of rapid change, often termed a 'Fourth Industrial Revolution' (4IR), raising major questions around neo-colonialism, democracy, economic and social inequality, sustainability, security, warfare and the relationship between digitalisation and popularism/fascism. Drawing on theoretical approaches and real world examples, students will gain a critical and in-depth understanding of the relationship between technology, power and uneven development and critically assess the uneven nature of technological advancement and revolution in global politics.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and analyse the diverse epistemological and methodological approaches underpinning the relationship between technology and uneven development

ULO2: Critically analyse historical and contemporary patterns of technological

production, advancement and application in global life

ULO3: Demonstrate an advanced understanding of the political economy of technology and its relation to life, labour and social interactions

ULO4: Critically evaluate the correlation between the techno-scientific continuum and the history of the world system

General Assessment Information

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue. This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.
