Unit description

This unit explores dynamic public policy development in relation to crime. It examines how governance frameworks (including legal and regulatory institutions) endeavour to regulate conduct by individuals and corporations, and how these frameworks aim to promote public interests and community welfare. Students will analyse the impact of various stakeholders in the criminal justice system on policy formulation, including in relation to corporate, environmental and moral crimes. They will be challenged to critically analyse real-world reform initiatives and to appreciate how criminological expertise and modern concepts in governance theory (such as reintegrative shaming, responsive regulation and restorative justice) are articulated in legal and policy-making forums.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Describe and critique how legal institutions and governance frameworks endeavour to regulate the conduct of individuals and corporations in relation to activities that impact on community welfare and the public interest

ULO2: Analyse and apply modern theories of criminal justice (restorative justice, responsive regulation and reintegrative shaming)

ULO3: Conduct interdisciplinary research in criminology in the course of developing problem-solving skills, and identify the role played by these disciplines in influencing legal processes and policy-making forums

ULO4: Critique current policy initiatives in relation to crime through the application of established theoretical frameworks

General Assessment Information

All written assessments submitted electronically must be submitted through the link provided in iLearn. This unit will utilise Turnitin plagiarism detection software. Students should carefully check that they submit the correct file for an assessment, as re-submissions will not be accepted after the due date and time, including instances where students upload an incorrect file in error.

The design, moderation and feedback of all assessments is in accordance with the Macquarie University Assessment Procedure (link provided under 'Policies and Procedures' below).

Late Submission Policy

A maximum penalty of five (5) percentage points of the total possible marks will be applied per day to late submissions, for up to a maximum of seven calendar days. Tasks that have not been submitted within the maximum number of additional late days will receive a mark of zero. This provision does not apply to online exams or other assessment with a time limit of less than 24 hours.

Penalties for late submission will be applied consistently and equitably to all students enrolled in the unit. Where short-term, serious and unavoidable circumstances have affected their ability to submit an assessment task, a student must submit a formal application for Special Consideration as per the Special Consideration Policy. Students should not request an informal arrangement from their tutor, lecturer or Unit Convenor.

Where an application for Special Consideration is approved, and the outcome is an extension to the due date of a task, submissions that are received after the new due date will be subject to late penalties that are calculated from the new due date. This only applies where the outcome is an extension to the due date – see the Special Consideration Policy for a schedule of all possible outcomes.

Special Consideration

Students should submit applications for Special Consideration electronically via ask.mq.edu.au, along with the supporting documentation. Before submitting their applications, students should refer to the Special Consideration Policy (link provided under 'Policies and Procedures' below).
