Unit description
This PACE unit draws together learning in previous units to prepare students for the workplace through engaging with a partner organisation. Students will work in close collaboration throughout the session with a project sponsor that has provided a problem to be solved or a study to be designed. Students will develop the ability to appreciate the nature of statistical/mathematical problems and discuss the problem solving cycle; listen to a client's statement of a problem and ask appropriate questions for clarification; recognise appropriate statistical/mathematical techniques for use in a variety of problems, and apply these techniques competently; recognise situations in which familiar techniques do not apply and search the literature for appropriate alternative techniques; write reports at an appropriate technical level for a client or a colleague; give a verbal summary of a statistical/mathematical investigation at a level appropriate for the audience; and discuss the ethical aspects and implications of professional statistical/mathematical work.

Visit Employability Connect for important information on this unit including required preparation and closing dates for PACE activities.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

- **ULO1**: Critically analyse and describe the client's problem and apply principles, models, tool, techniques, technology and processes to provide a solution.
- **ULO2**: Effectively communicate stages and results of the project (in both written and oral form)
- **ULO3**: Recognise and address ethical issues when they arise based on an understanding of professional ethic
- **ULO4**: Improve ability to work co-operatively as a team member

**Activity-Based Learning**

Assessment Type: Work-integrated task

Indicative Time on Task: 6 hours

Due: Weekly

Weighting: 10%

Contribution to weekly activities such as workshops, client meetings, group meetings and discussions.
On successful completion you will be able to:

- Critically analyse and describe the client's problem and apply principles, models, tool, techniques, technology and processes to provide a solution.
- Effectively communicate stages and results of the project (in both written and oral form)
- Recognise and address ethical issues when they arise based on an understanding of professional ethic
- Improve ability to work co-operatively as a team member

**Work Readiness Self-Reflection**

Assessment Type 1: Reflective Writing  
Indicative Time on Task 2: 5 hours  
Due: **Weeks 2 & 13**  
Weighting: 10%

Self Reflection on previous learning, group process, technical aspects of the group project and working with partner experience.

On successful completion you will be able to:

- Effectively communicate stages and results of the project (in both written and oral form)
- Recognise and address ethical issues when they arise based on an understanding of professional ethic

**Project Plan**

Assessment Type 1: Plan  
Indicative Time on Task 2: 5 hours  
Due: **Week 4**  
Weighting: 10%

The project plan is a document where students outline what they are going to do to address the issues raised by the partner (i.e. designing a study or solving a problem) in a given time frame (i.e. project milestones achieved within the session).

On successful completion you will be able to:

- Critically analyse and describe the client's problem and apply principles, models, tool, techniques, technology and processes to provide a solution.
• Effectively communicate stages and results of the project (in both written and oral form)
• Recognise and address ethical issues when they arise based on an understanding of professional ethic
• Improve ability to work co-operatively as a team member

Project Report
Assessment Type 1: Report
Indicative Time on Task 2: 15 hours
Due: Week 12
Weighting: 50%

Written report to demonstrate a solution to a client problem.

On successful completion you will be able to:
• Critically analyse and describe the client's problem and apply principles, models, tool, techniques, technology and processes to provide a solution.
• Effectively communicate stages and results of the project (in both written and oral form)
• Recognise and address ethical issues when they arise based on an understanding of professional ethic
• Improve ability to work co-operatively as a team member

Project Presentation
Assessment Type 1: Presentation
Indicative Time on Task 2: 5 hours
Due: Weeks 12 & 13
Weighting: 20%

All members of a group will present a talk on a particular aspect of the project.

On successful completion you will be able to:
• Critically analyse and describe the client's problem and apply principles, models, tool, techniques, technology and processes to provide a solution.
• Effectively communicate stages and results of the project (in both written and oral form)
• Recognise and address ethical issues when they arise based on an understanding of professional ethic
• Improve ability to work co-operatively as a team member

1 If you need help with your assignment, please contact:
   • the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
   • the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Classes

Workshops (beginning in Week 1): There is one two-hour class each week.

Methods of Communication

We will communicate with you via your university email or through announcements on iLearn. Queries to convenors can either be placed on the iLearn discussion board or sent to your lecturers from your university email address.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering

We value student feedback to be able to continually improve the way we offer our units. As such we encourage students to provide constructive feedback via student surveys, to the teaching staff directly, or via the FSE Student Experience & Feedback link in the iLearn page.
Student feedback from the previous offering of this unit was very positive overall, with students pleased with the clarity around assessment requirements and the level of support from teaching staff. As such, no change to the delivery of the unit is planned, however we will continue to strive to improve the level of support and the level of student engagement.
