Unit description
This unit comprises study of advanced disciplinary knowledge in STEM, and is designed to supplement a student’s existing knowledge and coursework with targeted material and techniques that will be required to achieve their research goals. Activities may include attending a national or international specialist training opportunities, cross-institutional study or highly tailored units of study that are exemplars of current analytical/theoretical concepts or problem-solving applications. Topics and activities will be selected with the aid of the discipline advisor and an academic mentor.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Demonstrate advanced disciplinary knowledge and skills
ULO2: Employ self-directed learning to achieve educational goals
ULO3: Clearly communicate in written, oral or other forms as relevant to the activity undertaken

### Assessment tasks (3+)

**Assessment Type**: Portfolio  
**Indicative Time on Task**: 141 hours  
**Due**: Week 8-10  
**Weighting**: 95%

You will have a minimum of 3 assessment tasks, with a maximum of 60% weighting for any one task. Tasks can vary and may include a scientific report, report, essay or exam, as appropriate for a 10cp unit. Assessment tasks and weightings will follow the learning plan agreed upon with the mentor for a project-based unit, or will be as listed in the unit guides when components of other units are being undertaken with the approval of the unit convenor.

On successful completion you will be able to:

- Demonstrate advanced disciplinary knowledge and skills
- Employ self-directed learning to achieve educational goals
- Clearly communicate in written, oral or other forms as relevant to the activity undertaken

### Learning plan

**Assessment Type**: Plan  
**Indicative Time on Task**: 7 hours  
**Due**: Week 3  
**Weighting**: 5%

You will work with your mentor and/or unit convenor to develop a learning plan for the unit that includes all assessment tasks and the total time to be spent on these tasks (not to exceed 141 hrs).
On successful completion you will be able to:

- Employ self-directed learning to achieve educational goals
- Clearly communicate in written, oral or other forms as relevant to the activity undertaken

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

This MRes unit is designed to provide flexibility in learning options for year 1 Masters of Research students. The goal of these units is to provide a way for students to acquire capabilities that will be useful for their year 2 project or cross-disciplinary experience. The goal is not to provide them with extra time to start their projects.

The activities and assessments are determined between the supervisor and the student and equate to a workload of 150 hours.

**Policies and Procedures**

Macquarie University policies and procedures are accessible from [Policy Central](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
