Unit description
This unit offers a comprehensive exploration of principles, technologies, and practices associated with water and wastewater engineering. Students will delve into the critical aspects of water and wastewater systems, including source identification, treatment processes, quality monitoring, regulatory compliance, sustainable design, and sustainable resource management. Through a combination of theoretical learning and practical case studies, students will develop a deep understanding of the challenges posed by water scarcity, contamination, and environmental impacts. The unit encourages critical thinking in design by engaging students in teams in analyzing real-world scenarios and designing effective engineering solutions for water and wastewater treatment facilities.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Exhibit a well-developed understanding of water quality parameters to characterize the constituents of drinking water and municipal wastewater.

ULO2: Exhibit a well-developed understanding of physical, chemical and biological unit operations in treatment processes.
ULO3: Select and apply appropriate options to design processes for treating drinking water and municipal wastewater based on engineering concepts.

ULO4: Communicate outcomes of analysing and designing different water and wastewater treatment processes in professionally varied ways.

ULO5: Integrate principles of sustainability into the design of water and wastewater treatment systems (E, A).

Assessment Tasks

<td>No</td>
<td>During the Exam Period, TBA</td>
</tr>
</tbody>
</table>

Project report

Assessment Type: Project
Indicative Time on Task: 32 hours
Due: Week 12 Friday
Weighting: 40%

Water and wastewater projects

On successful completion you will be able to:

- Exhibit a well-developed understanding of water quality parameters to characterize the constituents of drinking water and municipal wastewater.
- Exhibit a well-developed understanding of physical, chemical and biological unit operations in treatment processes.
- Select and apply appropriate options to design processes for treating drinking water and municipal wastewater based on engineering concepts.
- Communicate outcomes of analysing and designing different water and wastewater treatment processes in professionally varied ways.
- Integrate principles of sustainability into the design of water and wastewater treatment systems (E, A).
Mid-session quiz

Assessment Type 1: Quiz/Test
Indicative Time on Task 2: 15 hours
Due: Week 7 Monday
Weighting: 20%

On successful completion you will be able to:

- Exhibit a well-developed understanding of water quality parameters to characterize the constituents of drinking water and municipal wastewater.
- Exhibit a well-developed understanding of physical, chemical and biological unit operations in treatment processes.
- Select and apply appropriate options to design processes for treating drinking water and municipal wastewater based on engineering concepts.
- Communicate outcomes of analysing and designing different water and wastewater treatment processes in professionally varied ways.
- Integrate principles of sustainability into the design of water and wastewater treatment systems (E, A);

Final examination

Assessment Type 1: Examination
Indicative Time on Task 2: 35 hours
Due: During the Exam Period, TBA
Weighting: 40%

On successful completion you will be able to:

- Exhibit a well-developed understanding of water quality parameters to characterize the constituents of drinking water and municipal wastewater.
- Exhibit a well-developed understanding of physical, chemical and biological unit operations in treatment processes.
- Select and apply appropriate options to design processes for treating drinking water and
municipal wastewater based on engineering concepts.
• Integrate principles of sustainability into the design of water and wastewater treatment systems (E, A);.

1 If you need help with your assignment, please contact:
• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Textbook(s):
Wastewater Engineering Fifth Edition
Treatment and Resource Recovery
By: Inc. Metcalf & Eddy, George Tchobanoglous, H. David Stensel, Ryujiro Tsuchihashi, Franklin L. Burton

Online Platform:
The iLearn Page will provide all necessary information related to the subject.

Equipment Required:

1. **Scientific Calculator**: A high-quality scientific calculator is essential for this course. You are also expected to familiarise yourself with its various functions and operations.

2. **Personal Device (Laptop/Tablet/Mobile Phone)**: A personal device, such as a laptop, tablet, or mobile phone, is necessary for accessing the iLearn resources.

Ensure you procure these resources and familiarise yourself with the online platform before our first class for an optimal learning experience.

Unit Schedule

**Teaching Schedule for Semester 2, 2024** *(subjected to minor changes)*

Lectures: Monday 12 pm- 2pm (Online Via ZOOM)
Workshops/Practicals: Tuesday 2pm – 4pm (Venue- 01 CC 109)
### Lecture topics (Online Delivery)

<table>
<thead>
<tr>
<th>Week</th>
<th>Lecture topics</th>
<th>(SGTA) Workshops/Practicals</th>
<th>Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Unit General Information; Introduction to Wastewater Engineering and process analysis including reaction rates kinetics</td>
<td>NO SGTA</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Week 1 review; Types of reactors; Wastewater sources and productions including: Wastewater flowrates and constituent loading</td>
<td>SGTA</td>
<td></td>
</tr>
</tbody>
</table>
| 3    | Wastewater Characteristics | SGTA | Project Assignment (40%), Project Brief will be issued in Week 3. Projects Groups will be also assigned in Week 3  
Part A- 2 Online Quizzes 5%,  
  1st Quiz (2.5%)- Week 4, Friday  
  2nd Quiz (2.5%)- Week 10, Friday  
Part B- Example Site Visit 5%, WEEK 10, Tuesday  
Part C- Group Report 5%, Week 12, Friday  
Part D- Presentation – 10%, Week 13, Tuesday (During workshops) |
| 4    | Wastewater treatment process selection and design, including: Physical Unit processes | SGTA | Project Assignment  
Part A, 1st Quiz (2.5%)- Week 4, Friday |
| 5    | Fundamentals of biological treatment, including: Suspended growth biological treatment  
Attended growth and combined biological treatment | SGTA and QUIZ 1 Review |  |
| 6    | Wastewater treatment process selection and design, including: Biological treatment part 2 | Group planning their projects |  |
| 7    | MID-TERM EXAM | Revision and Consultation | MID-TERM EXAM (Worth 20%) due on Week 7 |
| 8 (9th September) | Guest Lecture * | SGTA and Mid-Term Exam Review | *Attendance required from all students |
| 16th Sep to 27th Sep | SEMESTER BREAK | SEMESTER BREAK |  |
Refer to iLearn for further information.

**Week 1**

There will be no pracs/SGTAs in week 1. The SGTAs will start from Week 2 only.

**Methods of Communication**

We will communicate with you via your university email or through announcements on iLearn. Queries to convenors can either be placed on the iLearn discussion board or sent to bandita.mainali@mq.edu.au from your university email address.

**COVID Information**

For the latest information on the University’s response to COVID-19, please refer to the Coronavirus infection page on the Macquarie website: [https://www.mq.edu.au/about/coronavirus-faqs](https://www.mq.edu.au/about/coronavirus-faqs). Remember to check this page regularly in case the information and requirements change during semester. If there are any changes to this unit in relation to COVID, these will be communicated via iLearn.

**Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central ([https://policies.mq.edu.au](https://policies.mq.edu.au)). Students should be aware of the following policies in particular with regard to Learning and Teaching:
Student Support

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

The Writing Centre

The [Writing Centre](https://unitguides.mq.edu.au/unit_offerings/166899/unit_guide/print) provides resources to develop your English language proficiency, academic writing, and communication skills.

- [Workshops](https://unitguides.mq.edu.au/unit_offerings/166899/unit_guide/print)
- Chat with a WriteWISE peer writing leader

Academic Integrity

At Macquarie, we believe [academic integrity](https://students.mq.edu.au/admin/other-resources/student-conduct) – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Results

Results published on platform other than [eStudent](https://students.mq.edu.au), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](https://students.mq.edu.au). For more information visit [ask.mq.edu.au](https://students.mq.edu.au/) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/admin/other-resources/student-conduct](https://students.mq.edu.au/admin/other-resources/student-conduct)

Student Policies

Students seeking more policy resources can visit [Student Policies](https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit [Policy Central](https://policies.mq.edu.au/) and use the search tool.
The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

**Student Services and Support**

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues
- Student Advocacy provides independent advice on MQ policies, procedures, and processes

**Student Enquiries**

Got a question? Ask us via AskMQ, or contact Service Connect.

**IT Help**

For help with University computer systems and technology, visit [http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.
